## **1. INTRODUCTION**

This document is designed to enable interested users to access and manipulate the microdata file for the seventh cycle of the General Social Survey, conducted from January through December, 1992. It contains information on the objectives, methodology and estimation procedures as well as guidelines for releasing estimates based on the survey.

This document gives a description on how to correctly use the microdata files. Appendices D, G and I contain the data dictionaries for the Main File, the Time Use Summary File and the Time Use Episode File, respectively, which is the major part of this documentation package. The survey questionnaires are contained in Appendix B, and the variance tables are in Appendix A.

Excluding Appendix B and the two tables at the end of Appendix Q, this package is available in machine readable form.

## **2. OBJECTIVES**

Increased pressure, over the last five to ten years, to operate more efficient government funded programmes, has led to a related increase in the information needed for policy formulation, programme development and evaluation. Many of these needs could not be filled through existing data sources or vehicles because of the range or periodicity of the information required.

The two primary objectives of the General Social Survey (GSS) aim at closing these gaps. These objectives are: to gather data on social trends in order to monitor temporal changes in the living conditions and well-being of Canadians; and to provide immediate information on specific social policy issues of current or emerging interest. The GSS is a continuing program with a single survey cycle each year.

To meet the stated objectives, the data collected by the GSS are made up of three components: Classification, Core and Focus.

Classification content consists of variables which provide the means of delineating population groups and for use in the analysis of Core and Focus data. Examples of classification variables are age, sex, education, and income.

Core content is designed to obtain information which monitors social trends or measures changes in society related to living conditions or well-being. Cycle 7 was the second cycle to return to previous core content: time use. Most of the core content of Cycle 7 repeated Cycle 2, conducted in 1986.

Focus content is aimed at the second survey objective of GSS. This component obtains information on specific policy issues which are of particular interest to certain federal departments or other user groups. In general, focus content, is not expected to be repeated on a periodic basis. The focus content for Cycle 7 was participation in sport and cultural activities sponsored by various government departments and cultural organizations and Sport Canada.

### **3. POPULATION**

The target population for the GSS was all persons 15 years of age and older in Canada, excluding:

1. residents of the Yukon and Northwest Territories;
2. full-time residents of institutions.

The survey employed Random Digit Dialling (RDD), a telephone sampling method. Households without telephones were therefore excluded, however, persons living in such households represent less than 2% of the target population. Survey estimates have been adjusted (weighted) to represent persons without telephones.

### **4. SURVEY DESIGN**

Data for Cycle 7 of the GSS was collected monthly from January to December, 1992. The sample was evenly distributed over the 12 months to counterbalance seasonal variation in the information gathered. It was then divided equally among the seven days of the week. The sample was selected using the Elimination of Non-Working Banks technique of Random Digit Dialling (RDD). A description of this method is provided in Section 4.2. Stratification procedures used in the survey design are outlined in Section 4.1, and Section 4.3 discusses sample sizes.

#### **4.1 Stratification**

In order to carry out sampling, each of the ten provinces was divided into strata or geographic areas. Generally, for each province one stratum represented the Census Metropolitan Areas (CMAs) of the province and another represented the non-CMA areas. There were two exceptions to this general rule:

- Prince Edward Island has no CMA and so did not have a CMA stratum
- Montreal and Toronto were each separate strata

## **4.2 Elimination of Non-working Banks RDD Design**

The Elimination of Non-Working Banks (ENWB) sampling technique is a method of Random Digit Dialling in which an attempt is made to identify all working banks<sup>1</sup> for an area (i.e., to identify all banks with at least one household). Thus, all telephone numbers within non-working banks are eliminated from the sampling frame.

For each province, lists of telephone numbers in use were purchased from the telephone companies and lists of working banks were extracted. Each bank was assigned to a stratum within its province.

A special situation existed in Ontario and Quebec because some small areas are serviced by independent telephone companies rather than by Bell Canada. The area code prefixes for these areas were identified by matching the Bell file with a file of all area codes and prefixes. Area code prefixes from Ontario and Quebec and not on the Bell file were identified. All banks within these area code prefixes were generated and added to the sampling frame. Use of the Waksberg method<sup>2</sup> was not possible for these areas since it requires that an accurate population estimate be available for the survey area. Such an estimate was not available for the parts of Ontario and Quebec not covered by Bell.

A random sample of telephone numbers was generated in each survey month for each stratum (from the working banks). An attempt was made to generate the entire sample of telephone numbers on the first day of interviewing. Therefore, a prediction of the percentage of numbers dialled that would reach a household had to be made (this is known as the "hit rate"). The hit rate for January, the first survey month, was estimated using information from previous RDD surveys. Hit rates for subsequent months were revised as required based on January's experience.

For Cycle 7 of the GSS, 46.3% of the numbers dialled reached households. An attempt was made to conduct a GSS interview with one randomly selected person from each household.

## **4.3 Sample Size**

The sample consisted of 12,765 households and a GSS Selection Control Form (GSS 7-1) was completed for each. The GSS 7-1 listed all household members and collected the following basic demographic information: age, sex, marital status and relation to the household reference person. A person 15 years

---

<sup>1</sup> A bank of telephone numbers is a set of 100 numbers with the same first eight digits (i.e. the same Area Code-Prefix-Bank ID). Thus 613-951-9180 and 613-951-9192 are in the same bank, but 613-951-9280 is in a different bank.

<sup>2</sup> Waksberg, J. "Sampling methods for Random Digit Dialing", *Journal of the American Statistical Association*, 73, (1978): 40-46.

of age or older was randomly selected from households which were part of the RDD sample. A GSS 7-2 was then completed for these selected persons.

The GSS 7-2 collected the following types of information: general questions related to time (Section A); the time use diary (Section B); a child care diary for respondent's with children less than 15 years of age living in the household (Section C); information on unpaid help supplied by the respondent to the household, as well as, unpaid help provided by the respondent to persons not living in the household (Section D); perceptions of time (Section E); educational, cultural and recreational activities of the respondent (Section F); organized sport (Section G); main activity of the respondent (Section H); main activity of the respondent's partner or spouse, if applicable (Section J); background socio-economic questions for classification purposes (Section K); and a final section asking respondents for detailed contact information for follow-up (Section M).

A response was obtained from 9,815 of the selected households, yielding an 77% response rate.

## 5. COLLECTION

Two questionnaires were used to conduct the interviews: the Selection Control Form (GSS 7-1) and the main questionnaire, the GSS 7-2. Respondents were interviewed in the official language of their choice. The French and English versions of the main questionnaire were identical with the exception of question K13 "What language did you first speak in childhood?". Respondents were not asked if they still understood the language in which they were being interviewed.

Questionnaires and procedures were field tested in July 1991 in Halifax and Montreal. Data collection began the third week of January 1992 and continued through the third week of December 1992. The sample was evenly distributed over the 12 months. All interviewing took place using centralized telephone facilities in five of Statistics Canada's regional offices with calls being made from approximately 9 a.m. until 9:30 p.m., Monday to Saturday inclusive. The five regional offices were: Halifax, Montreal, Sturgeon Falls<sup>3</sup>, Winnipeg and Vancouver. Interviewers were trained by Statistics Canada staff in telephone interviewing techniques, survey concepts and procedures in a two day classroom training session. The majority of interviewers had previous telephone interviewing experience.

---

<sup>3</sup>

The regional office in Sturgeon Falls was used for the first four months of the survey. During the month of April, the sample for the Toronto CMA was carried out in the Winnipeg regional office. For the remaining eight months of the survey, the entire Ontario sample was transferred to the regional office in Winnipeg.

It would be too lengthy to include all the survey manuals as part of this documentation package, however, they can be purchased (see Chapter 10). Shown below is a list of the manuals used in the survey:

- GSS 7-3: Procedures Manual**
- GSS 7-4: Interviewer's Manual**
- GSS 7-6: Interviewer's Exercise Book**
- GSS 7-7: Senior Interviewer's Exercise Book.**
- GSS 7-8: Interviewer's Training Guide**

## **6. PROCESSING**

The following is an overview of the processing steps for Cycle 7 of the GSS.

### **6.1 Data Capture**

Data from the survey questionnaires were entered directly into mini-computers at Statistics Canada's regional offices (ROs) and subsequently transmitted to Head Office in Ottawa. The data capture program allowed for a valid range of codes for each question and automatically followed the flow of the questionnaire.

### **6.2 Edit and Imputation**

All survey records were subjected to an exhaustive computer edit to identify and correct invalid or inconsistent information on the questionnaires. For the second time, a batch edit system was implemented for use in the Regional Offices. The system mainly edited the GSS 7-2 for possible flow errors, values out of range and missing values. Edits on the GSS 7-1 were limited to a few edits for the respondent's age and sex. In the event the interviewer was unable to correctly resolve the detected errors, it was possible for the interviewer to bypass the edit and forward the data to head office for resolution.

Head office edits performed the same checks as the batch edit system as well as more detailed edits. Records with missing or incorrect information were assigned non-response codes or corrected from other information from the respondent's questionnaire. In most cases editing was 'bottom-up', meaning that specific related information following a question with a branching pattern was employed to ensure the branching was correct. For example, question D5 'Do you pay anyone, on a regular basis, to help out with cleaning your house?' was edited in relation to question D6 'How often do you use this service?' Correlation edits were also conducted, for example, question K11 of the Time Use Questionnaire was 'In what year did you first immigrate to Canada?'. This question was edited in relation to the respondent's age as derived from question K12 'What is your date of birth?'. These edits ensured that the information was consistent and complete among questions.

Due to the nature of the survey, imputation was not appropriate for most items and thus 'not stated' codes were usually assigned for missing data. In some cases, the answer was not known but could be obtained deterministically by the questions which followed or from information from other areas of the survey.

Non-response was not permitted for those items required for weighting. Values were imputed in the rare cases where any of the following were missing: age, sex, and number of residential telephone lines. The imputation was based on a detailed examination of the questionnaire and the consideration of any useful data such as age and sex of other household members, and interviewer's comments.

DVTEL (number of residential telephone lines) was derived from questions K4 to K9 of the Time Use Questionnaire (GSS 7-2). When the questionnaire did not contain adequate information to derive DVTEL, it was assigned a value of one (1).

### **6.3 Coding**

Several questions allowing write-in responses had the write-in information coded into either new unique categories, or to a listed category if the write-in information duplicated a listed category. Where possible (e.g., occupation, industry, language, country of birth for the respondent, as well as, the respondent's mother and father, and religion), the coding followed either the standard classification systems as used in the Census of Population. The coding of the daily activities was done in the Regional offices within 24 hours of data collection by the senior interviewers.

### **6.4 Creation of Combined and Derived Variables**

A number of variables on the file have been derived by using items found on the GSS 7-1 and GSS 7-2 questionnaires. Derived variable names generally start with DV and are followed by characters referring to the question number or subject. In some cases, the derived variables are straightforward and involve collapsing of categories. In other cases, several variables have been combined to create a new variable. The data dictionaries provide comments indicating the origin of these variables. The coding of the daily activities was done in the Regional offices by the senior interviewers within 24 hours of data collection.

### **6.5 Amount of Detail on Microdata File**

In order to guard against disclosure, the amount of detail included on this file is less than is available on the master file retained by Statistics Canada. Variables with extreme values have been capped and information for some variables have been aggregated into broader classes (e.g., occupation, religion, industry, country of birth).

The measures taken to cap or group data have been indicated in the data dictionaries.

## **7. ESTIMATION**

When a probability sample is used, as was the case for the GSS, the principle behind estimation is that each person selected in the sample 'represents' (in addition to himself/herself) several other persons not in the sample. For example, in a simple random sample of 2% of the population, each person in the sample represents 50 persons in the population.

Three microdata files were created for the General Social Survey based on information from the Time Use Questionnaire (i.e. the GSS 7-2): the **Main File** which contains information from 9,815 respondents who answered questions on unpaid help, cultural activities and organized sport, the **Time Use Summary File** which contains information from 8,996 respondents who answered the time use questions and the **Time Use Episode File** which contains information describing detailed time use activities for the 8,996 respondents on the Time Use Summary File as well as the activities of those who refused to complete a full diary. The 8,996 respondents who answered time use questions are a subset of the 9,815 respondents who answered the unpaid help, cultural activities and organized sport questions. For a description of the file layouts, contents and correct interpretation of data on the microdata tape, users should refer to Appendices D, E, F, G, H and I.

The weighting factor on the Main File (FWGHT) was placed on each record to indicate the number of persons that the record represents. This weighting factor refers to the number of times a particular record should contribute to a population estimate. For example, the estimate of the number of Canadians 15 years and older who feel trapped in a daily routine (i.e. E2G = 1) is 7,329,963. The value of FWGHT is summed over all records with this characteristic. The weighting process is described in Section 7.1.

Similarly, the Time Use Summary File, has a weighting factor (TIMEWGT) which was placed on each record to indicate the number of persons that the record represents. The Time Use Summary File weighting process is the same as the one for the Main File and is described in Section 7.1.

Records on the Time Use Episode File have the same weight as the Time Use Summary File. This file is structured differently from the Main and the Time Use Summary Files and users should refer to Appendix Q for the correct methods of using this file.

### **7.1 Weighting**

A self-weighting sample design is one for which the weights of each unit in the sample are the same. The GSS sample for Cycle 7 was selected using the Elimination of Non-Working Banks (ENWB) sampling technique, which has such a design, with each household within a stratum having an equal probability of selection.

This probability is equal to:

$$\frac{\text{Number of telephone numbers sampled within the stratum}}{\text{Total number of possible telephone numbers within the stratum}}$$

(The total number of possible telephone numbers for a stratum is equal to the number of working banks for a stratum times 100).

Where possible, each survey month was weighted independently. This was done in an attempt to ensure that each survey month contributes equally to estimates. If monthly sample sizes were not large enough, two or more survey months were combined in certain steps of the weighting.

1) Basic Weight Calculation

Each household (responding and non-responding) in the RDD sample was assigned a weight equal to the inverse of its probability of selection. This weight was calculated independently for each stratum-month group as follows:

$$\frac{\text{Number of possible telephone numbers in each stratum-month group}}{\text{Number of sampled telephone numbers in each stratum-month group}}$$

2) Non-Response Adjustment

Weights for responding households were adjusted to represent non-responding households. This was done independently within each stratum-month group. Records were adjusted by the following factor:

$$\text{Factor 1} = \frac{\text{Total of the household weights of all households in each stratum-month group}}{\text{Total of the household weights of responding households in each stratum-month group}}$$

Non-responding households were then dropped.

3) Multiple Telephone Adjustment

Weights for households with more than one residential telephone number<sup>4</sup> (i.e. not used for business purposes only) were adjusted downwards to account for the fact that such households had a higher probability of being selected. The weight for each household was divided by the number of residential telephone numbers that serviced the household.

1

$$\text{Factor 2} = \frac{\text{Number of non-business telephone numbers}}{\text{_____}}$$

4) Person Weight Calculation

A person weight was then calculated for each person who responded to the survey, by multiplying the household weight<sup>5</sup> for that person by the number of persons in the household who were eligible to be selected for the survey (i.e. the number of persons 15 years of age or older).

5) Regional Office (RO) - Stratum - Month Adjustment

An adjustment was made to the person weights on records within each stratum per month in order to make population estimates consistent with Census projected population counts. This was done by multiplying the person weight for each record within the stratum by the following ratio:

$$\frac{\text{Projected Census population count}}{\text{for the RO-stratum-month}} \\ \hline \\ \frac{\text{Sum of the person weights for}}{\text{the RO-stratum-month}}$$

6) Province - Age - Sex Adjustment

---

<sup>4</sup> Less than 6% of the households in the sample have more than one non-business telephone number.

<sup>5</sup> Household Weight = Basic Weight \* Factor 1 \* Factor 2

The next weighting step was to ratio adjust the weights of to agree with Census projected province-age group-sex distributions. Census projected population counts were obtained for males and females within the following seven age groups:

15-19,	20-24,	25-34,	35-44,
45-54,	55-64,	65-69	70 +

For each of the resulting classifications the person weights for records within the classification were adjusted by multiplying by the following ratio:

Projected Census population count  
for the province-age group-sex

Sum of the person weights of records  
for the province-age group-sex

where,

Projected population count =  $\frac{\sum \text{Projected Census population count for province-age group-sex}}{\text{Jan}}$

---

12

It should be noted that persons living in households without telephone service are included in these projections even though such persons were not sampled.

Also the sample size of some cells did not meet the minimum size requirement. These cells were collapsed with an adjacent age group cell to meet the requirement.

#### 7) Province - Day of the week (Designated Day) Adjustment

Time use information was collected from respondents for a selected day of the week so that each day would have an equal number of respondents. An adjustment was made to the person weights on records within each province and the selected day of the week, ensuring that population estimates would be consistent with Census projected population counts. The projected counts for each province should have had an equal number of respondents. The adjustment was done by multiplying the person weight for each record within the province - day of the week combination by the following ratio:

Projected Census population count  
for the province-day

---

Sum of the person weights for the province-day

where,

$$\text{Projected population count} = \frac{\sum_{\text{Jan}}^{\text{Dec}} \text{Projected Census population count for province}}{12 * 7}$$

#### 8) Raking Ratio Adjustments

The weights of each respondent were adjusted several times using a raking ratio procedure. This procedure ensured that estimates produced for RO-Stratum-Month, Province-Age Group-Sex and Province-Day of the week totals would agree with the Census projections. This adjustment was made by repeating steps 5), 6) and 7) of the weighting procedures.

#### 7.2 Weighting Policy

Users are cautioned against releasing unweighted tables or performing any analysis based on unweighted survey results. As was discussed in Section 7.1, there were several weight adjustments performed independently to the records of each province. Sampling rates as well as non-response rates varied significantly from province to province.

Contact was made or attempted with 12,765 households during the survey. Of these, 1,577 (12.4%) were non-responding households. The non-responding households included 927 household refusals, 459 households that could not be reached during the entire survey period ("ring-no-answer" households) and 191 cases where a response could not be obtained due to language difficulties or other problems. An interview was attempted with a person randomly selected from the eligible household members of the 11,188 responding households. From these households, 9,815 usable responses were obtained. The difference consists of 509 person-level refusals and 864 cases where the interview could not be completed for some other reason. A response rate of 76.9% was obtained, when it is assumed that all of the households for which there was no response were "in scope" (i.e., had at least one eligible member).

It is known that non-respondents are more likely to be males and more likely to be younger. In the responding sample, 3.7% were males between the ages of 15 and 19, while in the overall population, approximately 4.4% were males between 15 and 19. Therefore, it is clear that the sample counts cannot be considered to be representative of the survey target population unless appropriate weights are applied.

### **7.3 Types of Estimates**

The following sections deal with producing estimates from either the Main File or the Time Use Summary File. For simplicity, only the Main File is referenced, although the techniques can also be applied to the Time Use Summary File.

Two types of 'simple' estimates are possible from the results of the General Social Survey. These are qualitative estimates (estimates of counts or proportions of people possessing certain characteristics) and quantitative estimates involving quantities or averages. More complex estimation and analyses are covered in Section 7.4.

#### **7.3.1 Qualitative Estimates**

It should be kept in mind that the target population for the GSS was non-institutionalized persons 15 years of age or over, living in the ten provinces. Qualitative estimates are estimates of the number or proportion of this target population possessing certain characteristics. The number of people (5,522,390) who describe their state of health as excellent (Question K21) is an example of this kind of estimate. These estimates are readily obtained by summing the final weights (FWGHT) of the records possessing the characteristic in question.

#### **7.3.2 Quantitative Estimates**

Some variables on the General Social Survey microdata file are quantitative in nature (e.g. age). From these variables, it is possible to obtain such estimates as the average number of weeks worked in the last 12 months (H13) for males 15 years or older living in Ontario, having worked between 1 and 52 weeks during the last 12 months. These estimates are of the following ratio form:

$$\text{Estimate (average)} = \frac{X}{Y}$$

The numerator (X) is a quantitative estimate of the total of the variable of interest (say, H13) for a given sub-population (say, males in Ontario i.e. DVSEX=1 and PROV=5). X would be calculated by multiplying the final weight (FWGHT) by the variable of interest (H13) and summing this product over all records for males.

The denominator (Y) is the qualitative estimate of the number of participants (males in Ontario with H13) within that sub-population. Y would be calculated by summing the final weight (FWGHT) over all male respondents in Ontario with  $1 \leq H13 \leq 52$ .

The two estimates X and Y are derived independently and then divided to provide the quantitative estimate. For the example given X (the weighted sum of weeks) equals XXXX and Y (the number of males in the subpopulation) equals YYYY. The average number of weeks is then calculated to be:

$$\begin{aligned} \text{XXXX} &= 128,918,398.16 = 33.4 \\ \text{YYYY} &= 3,861,075.33 \end{aligned}$$

#### 7.4 Guidelines for Analysis

As is detailed in Section 4 of this document, the respondents from the GSS do not form a simple random sample of the target population. Instead, the survey had a complex design, with stratification and multiple stages of selection, and unequal probabilities of selection of respondents. Using data from such complex surveys presents problems to analysts because the survey design and the selection probabilities affect the estimation and variance calculation procedures that should be used.

The GSS used a stratified design, with significant differences in sampling fractions between strata. Thus, some areas are over-represented in the sample (relative to their populations) while some other areas are relatively under-represented; this means that the unweighted sample is not representative of the target population.

The survey weights must be used when producing estimates or performing analyses in order to account for this over- and under-representation. While many analysis procedures found in statistical packages allow weights to be used, the meaning or definition of the weight in these procedures often differs from that which is appropriate in a sample survey framework, with the result that while in many cases the estimates produced by the packages are correct, the variances that are calculated are almost meaningless.

For many analysis techniques (for example linear regression, logistic regression, estimation of rates and proportions, and analysis of variance), a method exists which can make the variances calculated by the standard packages more meaningful. If the weights on the data, or any subset of the data, are rescaled so that the average weight is one (1), then the variances produced by the standard packages will be more reasonable; they still will not take into account the stratification and clustering of the sample's design, but they will take into account the unequal probabilities of selection. This rescaling can be accomplished by dividing each weight by the overall average weight before the analysis is conducted.

For an analysis of all respondents who consider themselves as "workaholics", the following steps are required:

- Select all respondents from the file who considered themselves as a workaholic (E2B = 1);
- Calculate the Average Weight for these records;
- For each of these respondents calculate a "working" weight equal to FWGHT / Average Weight;
- Perform the analysis for these respondents using the "working" weight.

The calculation of truly meaningful variance estimates requires detailed knowledge of the design of the survey; such detail cannot be given in this microdata file because of confidentiality. Variances that take the sample design into account can be calculated for many statistics by Statistics Canada on a cost recovery basis.

### **7.5 Methods of Estimation and Interpretation of Estimates**

The basic sampling weight assigned to each sampled individual has been adjusted to reflect the age and sex composition of the various provincial populations as projected by the Labour Force Survey, for each month of 1992.

$$\begin{aligned} & 9,815^6 \\ \sum_{i=1} & \text{ FWGHT} = 21,294,313 \\ & = \text{ an estimate of the number of persons 15 years of age and older} \\ & \quad \text{in the population.} \end{aligned}$$

When estimates of the number of persons are desired, while using the Main File, FWGHT is to be used.

Examples & Interpretation:

- (i) In 1992, nearly 48% of female (DVSEX = 2) Canadians 15 years of age and older (5.2 million) stated they felt more rushed (A5 = 1) than compared to five years ago.
- (ii) 51% of Canadians 25 to 44 years of age (DVAGEGR GE 04 and DVAGEGR LE 07) tend to cut back on their sleep, when they need more time for other activities (E2C = 1).

---

<sup>6</sup>

There were 9,815 responding households (with one randomly chosen respondent per household).

- (iii) 78% of males (DVSEX = 1) aged 15 to 24 (01 ≤ DVAGEGR ≤ 03) stated that during the past 12 months they regularly participated in sports (G1 = 1) while only 57% of females (DVSEX = 2) in the same age category took part regularly.

## **8. RELEASE GUIDELINES AND DATA RELIABILITY**

It is important for users to become familiar with the contents of this section before publishing or otherwise releasing any estimates derived from the General Social Survey microdata files.

This section of the documentation provides guidelines to be followed by users. With the aid of these guidelines, users of the microdata files should be able to produce figures consistent with those produced by Statistics Canada and in conformance with the established guidelines for rounding and release. The guidelines can be broken into four broad sections: Minimum Sample Sizes for Estimates; Sampling Variability Policy; Sampling Variability Estimation; and Rounding Policy.

### **8.1 Minimum Sample Size For Estimates**

Users should determine the number of records on the particular microdata file which contribute to the calculation of a given estimate. This number should be 15 or more. When the number of contributors to the weighted estimate is less than this, the weighted estimate should not be released regardless of the value of the Approximate Coefficient of Variation.

### **8.2 Sampling Variability Guidelines**

The estimates derived from this survey are based on a sample of households. Somewhat different figures might have been obtained if a complete census had been taken using the same questionnaire, interviewers, supervisors, processing methods, etc. as those actually used. The difference between the estimates obtained from the sample and the results from a complete count taken under similar conditions is called the sampling error of the estimate.

Errors which are not related to sampling may occur at almost every phase of a survey operation. Interviewers may misunderstand instructions, respondents may make errors in answering questions, the answers may be incorrectly entered on the questionnaire and errors may be introduced in the processing and tabulation of the data. These are all examples of non-sampling errors.

Over a large number of observations, randomly occurring errors will have little effect on estimates derived from the survey. However, errors occurring systematically will contribute to biases in the survey estimates. Considerable time and effort was made to reduce non-sampling errors in the survey. Quality assurance measures were implemented at each step of the data collection and processing cycle to monitor

the quality of the data. These measures included the use of highly skilled interviewers, extensive training of interviewers with respect to the survey procedures and questionnaire, observation of interviewers to detect problems of questionnaire design or misunderstanding of instructions, procedures to ensure that data capture errors were minimized and coding and edit quality checks to verify the processing logic.

A major source of non-sampling errors in surveys is the effect of non-response on the survey results. The extent of non-response varies from partial non-response (failure to answer just one or some questions) to total non-response. Total non-response occurred because the interviewer was either unable to contact the respondent, no member of the household was able to provide the information, or the respondent refused to participate in the survey. Total non-response was handled by adjusting the weight of households who responded to the survey to compensate for those who did not respond.

In most cases, partial non-response to the survey occurred when the respondent did not understand or misinterpreted a question, refused to answer a question, could not recall the requested information.

Since it is an unavoidable fact that estimates from a sample survey are subject to sampling error, sound statistical practice calls for researchers to provide users with some indication of the magnitude of this sampling error.

Although the exact sampling error of the estimate, as defined above, cannot be measured from sample results alone, it is possible to estimate a statistical measure of sampling error, the standard error, from the sample data. Using the standard error, confidence intervals for estimates (ignoring the effects of non-sampling error) may be obtained under the assumption that the estimates are normally distributed about the true population value. The chances are about 68 out of 100 that the difference between a sample estimate and the true population value would be less than one standard error, about 95 out of 100 that the difference would be less than two standard errors, and virtually with certainty that the differences would be less than three standard errors.

Because of the large variety of estimates that can be produced from a survey, the standard deviation is usually expressed relative to the estimate to which it pertains. The resulting measure, known as the coefficient of variation of an estimate is obtained by dividing the standard error of the estimate by the estimate itself and is expressed as a percentage of the estimate. Before releasing and/or publishing any estimates from the microdata file, users should determine whether the estimate is releasable based on the guidelines shown on the following page.

Type of Estimate	Coefficient of Variation	Policy Statement
1. Unqualified	0.0 to 16.5%	Estimates can be considered for general unrestricted release. No special notation is required.
2. Qualified	16.6 to 33.3%	Estimates can be considered for general unrestricted release but should be accompanied by a warning cautioning users of the high sampling variability associated with the estimates.
3. Not for	33.4% or over	Estimates should not be released in any form under any Release circumstances. In such statistical tables, such estimates should be excluded.

Note: The sampling variability policy should be applied to rounded estimates.

### 8.3 Estimates of Variance

Variance estimation is described separately for qualitative and quantitative estimates.

#### 8.3.1 Sampling Variability for Qualitative Estimates

Derivation of sampling variabilities for each of the qualitative estimates which could be generated from the survey would be an extremely costly procedure, and for most users, an unnecessary one. Consequently, approximate measures of sampling variability, in the form of tables, have been developed for use and are included in APPENDIX A ("Approximate Variance Tables"). These tables were produced using the coefficient of variation formula based on a simple random sample. Since estimates for Cycle 7 of the General Social Survey are based on a complex sample design, a factor called the Design Effect has been introduced into the variance formula.

The Design Effect for an estimate is the actual variance for the estimate (taking into account the design that was used) divided by the variance that would result if the estimate had been derived from a simple random sample. The Design Effect used to produce the Approximate Variance Tables has been determined by first calculating Design Effects for a wide range of characteristics and then choosing among these a conservative value which will not give a false impression of high precision. These Design Effects are specified in the table below.

### Design Effects

<u>Geographic Area</u>	<u>Design Effect</u>
Canada	1.53
Newfoundland	1.16
Prince Edward Island	1.14
Nova Scotia	1.17
New Brunswick	1.12
Quebec	1.21
Ontario	1.29
Manitoba	1.16
Saskatchewan	1.23
Alberta	1.18
British Columbia	1.21
Atlantic Region	1.23
Prairie Region	1.27

Approximate variance tables are provided for each province, the Atlantic Region, the Prairie Region and Canada. It should be noted that all coefficients of variation in these tables are approximate and, therefore unofficial. Estimates of actual variance for specific variables may be purchased from Statistics Canada. Use of actual variance estimates may allow users to release otherwise unreleasable estimates; i.e. estimates with coefficient of variation in the "Not for Release" range (see the policy regarding the release of the survey estimates on preceding pages).

#### **8.3.2 Sampling Variability For Quantitative Estimates**

Approximate variances for quantitative variables cannot be as conveniently summarized. As a general rule, however, the coefficient of variation of a quantitative total will be larger than the coefficient of variation of the corresponding qualitative estimate (e.g., the number of persons contributing to the quantitative estimate). If the corresponding qualitative estimate is not releasable, then the quantitative total will in general not be releasable.

#### **8.4 Rounding**

In order that estimates produced from the General Social Survey microdata files correspond to those produced by Statistics Canada, users are urged to adhere to the following guidelines regarding the rounding of such estimates. It may be misleading to release unrounded estimates, as they imply greater precision than actually exists.

#### **8.4.1 Rounding Guidelines**

- 1) Estimates of totals in the main body of a statistical table should be rounded to the nearest thousand using the normal rounding technique (see definition in Section 8.4.2).
- 2) Marginal sub-totals and totals in statistical tables are to be derived from their corresponding unrounded components and then are to be rounded themselves to the nearest thousand units using normal rounding.
- 3) Averages, proportions, rates and percentages are to be computed from unrounded components and then are to be rounded themselves to one decimal using normal rounding.
- 4) Sums and differences of aggregates and ratios are to be derived from corresponding unrounded components and then rounded to the nearest thousand units or the nearest one decimal using normal rounding.
- 5) In instances where, due to technical or other limitations, a different rounding technique is used resulting in estimates different from Statistics Canada estimates, users are encouraged to note the reason for such differences in the released document.

#### **8.4.2 Normal Rounding**

In normal rounding, if the first or only digit to be dropped is 0 to 4, the last digit to be retained is not changed. If the first or only digit to be dropped is 5 to 9, the last digit to be retained is raised by one. For example, the number 8499 rounded to thousands would be 8 and the number 8500 rounded to thousands would be 9.

## **9. FILE STRUCTURE**

In view of the nature of the time use data and the difference in the sample size, the microdata file consists of the three subfiles described below.

The **Main File** is composed of 341 variables covering general background, cultural participation, unpaid help measurement and organized sport variables. There are 9,815 records.

The **Time Use Summary File** consists of one record per respondent and summarizes the total time spent on each of 167 activities, the 10 major categories, the 24 subcategories<sup>7</sup>, total time spent at each location and total time spent with various persons. In addition, it contains a subset of characteristics found on the main file. This is the most widely used file for time use analysis. There are 8,996 records.

The **Time Use Episode File** consists of all episodes reported by respondents. Each respondent generated a variable number of records depending on the number of episodes reported. For each episode, there is information on the activity, start and end time, duration, location and an indication of who the respondent was with for that episode. There are 190,327 records.<sup>8</sup>

There is some duplication across the three files, however, this is done to facilitate the use of the files. The variables SEQNUM can be used for linking the files.

### **Special Notes**

1. The variables on the Main File are generally in the following order:  
general identification information and weight for each record (variables 1 to 4);  
as they appear on the GSS 7-2 questionnaire (variables 5 to 327); for most of these fields, a derived variable was created to assist the user with the data analysis;  
derived variables with information obtained on the GSS 7-1 questionnaire (variables 328 to 341).

Due to the large number of variables on the Main File, an index is provided in Appendix C.

2. **Variable Acronyms** - Numerous variable names directly link the data to the questionnaire. For example, the acronym DVD3, refers the user to question D3 of the questionnaire, the source of the data provided by this particular variable.

---

<sup>7</sup> See Appendix O for the detailed structure.

<sup>8</sup> This subfile contains 2375 records that were assigned a refusal flag value of one (1) (i.e. REFFLAG = 1 (field 16)) because of little or no information in the time use diary of 819 respondents. The corresponding weight (i.e. TIMEWGT (field 17)) assigned to those records was zero.

3. **Not Stated Categories** - Generally a code 9 for a one digit field, a code 99 for a 2 digit field, etc. indicate that the respondent did not answer a question and therefore the answer is not stated. As the following example indicates, two types of "Not Stated" categories may appear.

PLACE<sup>9</sup>      Where were you?/Were you still....

01	Respondent's home
02	Respondent's work place
03	Someone else's home
04	Other place
05	Car (Driver)
06	Car (Passenger)
07	Walking
08	Bus and subway
09	Bicycle
10	Other form of transit
88	Not stated (activity code is 001 or 002)
98	Respondent is in transit, form of transit is not stated
99	Not stated

Code 9, 99, etc. is the "true" not stated category for all variables on the file.

In certain questions, however, a second 'Not Stated' category appears. Although the respondent may not have marked a response, the information was actually partially available. Because of the branching pattern of a particular response, related information which followed, allows imputations of the original question. Other responses within the question were truly not stated. These cases are thus identified separately.

4. The sample and population counts and the mean values for each variable in the data dictionaries are calculated from all respondents, not only the ones specified in the coverage component of the description of the variable.

---

<sup>9</sup> Variable is found in the Time Use Episode File. Part (d) of a diary episode asks the respondent where the activity they reported took place.

## **10. ADDITIONAL INFORMATION**

Additional information about this survey can be obtained from the individuals listed below. Data from the survey are available through published reports, special request tabulations, and this microdata file. The microdata file is available from the Housing, Family and Social Statistics Division of Statistics Canada at a cost of \$750.00. Tabulations can be obtained at a cost that will reflect the resources required to produce the tabulation.

**APPENDIX A**

**Approximate Variance Tables**

## APPROXIMATE VARIANCE TABLES

By using the Approximate Variance Tables and the following rules, users should be able to determine approximate coefficients of variation for aggregates (totals), percentages, ratios, differences between totals, and differences between ratios.

### Rules for Obtaining Approximate Variances

The following rules should enable the user to determine the approximate coefficients of variation from the Approximate Variance Tables for estimates of the number, proportion or percentage of the surveyed population possessing a certain characteristic and for ratios and differences between estimates.

As noted in Section 8.1, each estimate should be derived from at least 15 respondents in order to be released, regardless of the Approximate Coefficient of Variation.

#### Rule 1: Estimates of Numbers Possessing a Characteristic (Aggregates)

The coefficient of variation (cv) depends only on the size of the estimated aggregate itself. On the Approximate Variance Table, locate the estimated aggregate in the left-most column of the table (headed "Numerator of Percentage") and follow the asterisks across to the first figure encountered. This figure is the estimated coefficient of variation.

#### *Example 1:*

*A user estimates that in Canada 342,078 females aged 15 years and over describe their state of health as poor compared to other people their age (question K2I=5). How does the user determine the approximate coefficient of variation for this estimate?*

*Refer to the approximate variance table for Canada level estimates. The estimated aggregate does not appear in the left-most column (the 'Numerator of Percentage' column), so it is necessary to use the closest figure, namely 350,000. The coefficient of variation for an estimated aggregate is found by referring to the first non-asterisk entry for that row, in this case 9.6%. This cv falls within the range of cv's for 'Unqualified' estimates (i.e. 0.0% - 16.5%, pg. A-9) allowing the estimate to be released without restriction.*

**Rule 2:**      Estimates of Percentages or Proportions Possessing a Characteristic

The coefficient of variation of an estimated percentage or proportion depends on both the size of the percentage or proportion and the size of the total upon which the percentage is based. Estimated percentages or proportions are relatively more reliable than the corresponding estimates of the numerators of the percentages, particularly if the percentages are 50 percent or more. (Note that in the tables the cv's decline in value reading from left to right).

When the percentage or proportion is based upon the total population of the geographic area covered by the table, the cv of the percentage or proportion is the same as the cv of the numerator of the percentage. In this case, Rule 1 can be used.

When the percentage or proportion is based upon a subset of the total population (e.g., those in a particular age-sex group), reference should be made to the percentage (across the top of the table) and to the numerator of the percentage or proportion (down the left side of the table). The intersection of the appropriate row and column gives the coefficient of variation.

*Example 2:*

*A user estimates that in Canada 3.15% of females aged 15 years and over describe their state of health as poor compared to others their age (question K21). This is the expression of the estimate obtained in Example 1 as a percentage of all females aged 15 years and over in Canada. How does the user determine the approximate coefficient of variation for this estimate?*

*Refer to the approximate variance table for Canada level estimates. Because the estimate is a percentage which is based on a subset of the population covered by the table, it is necessary to use both the percentage (3.15%) and the numerator portion of the percentage (342,078) to determine the approximate coefficient of variation. Since the numerator does not appear in the left-most column (the 'Numerator of Percentage' column), it is necessary to use the figure closest to it, namely 350,000. Similarly, the percentage estimate does not appear among the column headings, so it is necessary to use the figure closest to it, namely 2.0%. The figure at the intersection of the row and column selected, namely 9.6%, is the coefficient of variation. This cv falls within the range of cv's for 'Unqualified' estimates (i.e. 0.0% - 16.5%, pg. A-9) allowing the estimate to be released without restriction.*

### **Rule 3: Ratios**

In the case where the numerator is a subset of the denominator, the ratio should be converted to a percentage and Rule 2 applied. This would apply, for example, to the case where the denominator is the number of males and the numerator is the number of males who read a newspaper during the past week.

In the case where the numerator is not a subset of the denominator, the coefficient of variation of the ratio of two estimates is approximately equal to the square root of the sum of squares of each coefficient of variation considered separately. That is, the standard deviation of a ratio

$$\begin{aligned} R &= X / Y \\ \text{is} \\ \text{sd}(R) &= R * (\text{cv}(X)^2 + \text{cv}(Y)^2)^{1/2} \end{aligned}$$

The coefficient of variation of R is approximately:

$$\begin{aligned} \text{cv}(R) &= \text{sd}(R) / R \\ &= (\text{cv}(X)^2 + \text{cv}(Y)^2)^{1/2} \end{aligned}$$

This formula will tend to overstate the error if X and Y are positively correlated and underestimate the error if X and Y are negatively correlated.

#### **Example 3:**

*A user estimates that in Canada among females aged 15 years and over, 342,078 describe their state of health as poor compared to other people their age (question K21) and 2,636,680 describe their state of health as excellent as compared to others their age. The user is interested in the ratio of females describing their health as excellent versus those describing their health as poor. How does the user determine the approximate coefficient of variation for this ratio estimate?*

*The numerator of the ratio estimate is 2,636,680 (X). Using Rule 1 (refer to Example 1), the coefficient of variation for this estimate is determined to be 3.1%  $\text{cv}(X)$ . The denominator of the ratio estimate is 342,078 (Y). Again using Rule 1, the coefficient of variation is determined to be 9.6%  $\text{cv}(Y)$ . Using Rule 3, the coefficient of variation of the ratio estimate is*

$$\begin{aligned} \text{cv} &= (0.031^2 + 0.096^2)^{1/2} \\ &= 0.0009 \end{aligned}$$

*Therefore at the Canada level, the ratio of females who describe their health as excellent versus females who describe their health as poor is 2,636,680/342,078 or 7.7 to 1. The coefficient of variation of this estimate is 10.09%, and so the estimate can be released without restriction.*

**Rule 4: Differences Between Totals or Percentages**

The standard deviation of a difference between two estimates is approximately equal to the square root of the sum of squares of each standard deviation considered separately. That is, the standard deviation of a difference:

$$\begin{aligned} d &= X - Y \\ \text{is} \\ \text{sd}(d) &= (\text{sd}(X)^2 + \text{sd}(Y)^2)^{1/2} \end{aligned}$$

The coefficient of variation of  $d$  is approximately:

$$\text{cv}(d) = \text{sd}(d) / d$$

This formula is accurate for the difference between separate and uncorrelated characteristics but is only approximate otherwise.

**Example 4:**

*A user estimates that in Canada, among those 15 years and over, 3.15% (X) of females describe their state of health as poor compared to others their age and 2.81% (Y - an estimated 293,280) of males describe their state of health as poor compared to other people their age. The user is interested in the difference between these two estimates. How does the user determine the approximate coefficient of variation for the estimate of the difference?*

*From Example 2, the coefficient of variation for the female estimate is 9.6%. The coefficient of variation for the male estimate is 10.4%.*

*The difference between the estimates is 0.34%. Using Rule 4, standard deviation of the difference between the estimates is*

$$\begin{aligned} \text{sd} &= ((0.0315 \times 0.096)^2 + (0.0281 \times 0.104)^2)^{1/2} \\ &= 0.0042 \end{aligned}$$

*and the coefficient of variation is*

$$\begin{aligned} & \quad \quad \quad 0.0042 \\ cv & = \frac{\text{-----}}{0.0034} \\ & \quad \quad \quad = 1.2353 \end{aligned}$$

*Therefore the coefficient of the difference between the estimates is 123.53% and the estimate should not be released.*

#### **Rule 5: Difference of Ratios**

In this case, Rules 3 and 4 are combined. The cv's of the two ratios are first determined using Rule 3, and the cv of their difference is found using Rule 4.

#### Confidence Limits

Although coefficients of variation are widely used, a more intuitively meaningful measure of sampling error is the confidence interval of an estimate. A confidence interval constitutes a statement on the level of confidence that the true value for the population lies within a specified range of values. For example a 95% confidence interval can be described as follows:

If sampling of the population is repeated indefinitely, each sample leading to a new confidence interval for an estimate, then in 95% of the samples the interval will cover the true population value.

Using the standard error of an estimate, confidence intervals for estimates may be obtained under the assumption that under repeated sampling of the population, the various estimates obtained for a population characteristic are normally distributed about the true population value. Under this assumption, the chances are about 68 out of 100 that the difference between a sample estimate and the true population value would be less than one standard error, about 95 out of 100 that the difference would be less than two standard errors, and about 99 out of 100 that the differences would be less than three standard errors. These different degrees of confidence are referred to as the confidence levels.

Confidence intervals for an estimate,  $\hat{X}$ , are generally expressed as two numbers, one below the estimate and one above the estimate, as  $(\hat{X}-k, \hat{X}+k)$  where  $k$  is determined depending upon the level of confidence desired and the sampling error of the estimate.

Confidence intervals for an estimate can be calculated directly from the Sampling Variability Tables by first determining from the appropriate table the coefficient of variation of the estimate, and then using the following formula to convert to a confidence interval CI:

$$CI_{\hat{X}} = \{\hat{X} - (t)(\hat{X})(\alpha_{\hat{X}}), \hat{X} + (t)(\hat{X})(\alpha_{\hat{X}})\}$$

where  $\alpha_{\hat{X}}$  is the determined coefficient of variation of  $\hat{X}$

- t = 1 if a 68% confidence interval is desired;
- t = 1.6 if a 90% confidence interval is desired;
- t = 2 if a 95% confidence interval is desired;
- t = 3 if a 99% confidence interval is desired.

*Example 5(a):*

An estimated 635,358 persons described their state of health as poor (question K21) as compared to other people their age. This estimate has an approximate coefficient of variation of 6.5% (obtained from the 750,000 row, left-most column, of the Canada approximate variance table). The 95% confidence interval for this estimate is thus:

$$\begin{aligned} CI &= \{635,358 - (2)(635,358)(0.065), 635,358 + (2)(635,358)(0.065)\} \\ &= \{635,358 - 82,597, 635,358 + 82,597\} \\ &= \{552,761, 717,955\} \end{aligned}$$

*Example 5(b):*

An estimated 3.15% of females aged 15 years and over in Canada described their state of health as poor when compared to other people their age or .0315 expressed as a proportion. From Example 2 this estimate has an approximate coefficient of variation of 9.6%. A 95% confidence interval for this estimate (expressed as a proportion) is

$$\begin{aligned} CI &= \{.0315 - (2 \times .0315 \times 0.096), .0315 + (2 \times .0315 \times 0.096)\} \\ &= \{0.0255, 0.0375\} \end{aligned}$$

With 95% confidence it can be said that between 2.55% and 3.75% of females aged 15 years and over in Canada, describe their state of health as poor, compared to other people their age.

**Note:** Release guidelines which apply to the estimate also apply to the confidence interval. For example, if the estimate is not releasable, then the confidence interval is not releasable either.

### T-test

Standard errors may also be used to perform hypothesis testing, a procedure for distinguishing between population parameters using sample estimates. The sample estimates can be numbers, averages, percentages, ratios, etc. Tests may be performed at various levels of significance, where a level of significance is the probability of concluding that the characteristics are different when, in fact, they are identical.

Let  $X_1$  and  $X_2$  be sample estimates for 2 characteristics of interest. Let the standard error of the difference  $\hat{X}_1 - \hat{X}_2$  be  $\sigma_{\hat{d}}$

$$\text{If } t = \frac{\hat{X}_1 - \hat{X}_2}{\sigma_{\hat{d}}}$$

is between -2 and 2, then no conclusion about the difference between the characteristics is justified at the 5% level of significance. If however, this ratio is smaller than -2 or larger than +2, the observed difference is significant at the 5% level.

#### *Example 6:*

*A user wishes to test at the 5% level of significance the hypothesis that at the Canada level there is no difference between percentage estimates of males and females who describe their state of health as poor, as compared to other people their age. From Example 4 the estimate of the standard deviation of the difference between the estimates is 0.0042.*

$$\begin{aligned} \text{Hence } t &= \frac{0.0315 - 0.0281}{0.0042} \\ &= 0.81 \end{aligned}$$

*Since  $t = 0.81$  is less than 2, there is no evidence to reject the hypothesis at the 5% significance level.*

## GENERAL SOCIAL SURVEY CYCLE 7

## APPROXIMATE VARIANCE TABLES FOR NEWFOUNDLAND - (MAIN FILE)

NUMERATOR OF PERCENTAGE ('000)	ESTIMATED PERCENTAGE													
	0.1%	1.0%	2.0%	5.0%	10.0%	15.0%	20.0%	25.0%	30.0%	35.0%	40.0%	50.0%	70.0%	90.0%

Housing Family and Social Statistics Division

# General Social Survey

## Time Use Questionnaire

Ages 15 Years and over

GSS 7-2

Confidential when completed

Collected under the Authority of  
the Statistics Act. Revised  
Statutes of Canada, 1985.  
Chapter S19.

1	<input type="text"/>	-	<input type="text"/>	-	<input type="text"/>	Telephone Number
5	<input type="text"/> Label Identification Number					
	<input type="text"/> Page-line Number					
1	Type		Name of Interviewer <input type="text"/>			

**Section A: General Questions**

A1. START TIME:

A2. **INTERVIEWER:**  
*Repeat the introduction below if the selected respondent is different from household respondent.*  
Hello, I'm ... from Statistics Canada. I'm calling you for a study on the way Canadians spend their time.  
All the information you provide in this voluntary survey will be kept strictly confidential. Your participation is essential if the survey results are to be accurate.

A3. I will start with a few general questions related to time.

A4. How often do you feel rushed? Would you say it is ...  
 every day? .....  1  
 a few times a week? .....  2  
 about once a week? .....  3  
 about once a month? .....  4  
 less than once a month? .....  5  
 Never .....  6

A5. Compared to five years ago, do you feel more rushed, about the same or less rushed?  
 More rushed .....  7  
 About the same .....  8  
 Less rushed .....  9

A6. How often do you feel you have time on your hands that you don't know what to do with? Would you say it is ...  
 every day? .....  1  
 a few times a week? .....  2  
 about once a week? .....  3  
 about once a month? .....  4  
 less than once a month? .....  5  
 Never .....  6

**Section B: Time Use Diary**

B1. Interviewer - "X" day to which activities refer

Sunday .....  1  
 Monday .....  2  
 Tuesday .....  3  
 Wednesday .....  4  
 Thursday .....  5  
 Friday .....  6  
 Saturday .....  7

The best way to collect accurate information on the way people use their time is to complete a diary listing all of their activities over a 24-hour period. We start our diary at 4:00 in the morning because most of the people are asleep at that time.

(Optional):  
Let me give you an example: (read only the example that is most appropriate for this household)

**EXAMPLE 1: (Family with children)**  
Yesterday morning I was asleep until 7:15. From 7:15 to 7:30 I got dressed. Then from 7:30 to 7:45 I made breakfast. Then I ate breakfast with my spouse and children until 8:10.

**EXAMPLE 2: (Person living alone)**  
Yesterday morning I was asleep until 8:30. From 8:30 to 8:40 I had a shower and got dressed. Then from 8:40 until 8:55, I made breakfast.

**EXAMPLE 3: (Spouse with no children)**  
Yesterday morning I was asleep until 6:00. From 6:00 to 6:15 I got dressed. Then from 6:15 until 6:25 I made breakfast. From 6:25 to 6:35 I ate breakfast with my spouse.

B2. Let's begin

Do not ask question "e" about sleep, sex or other personal care activities.

1. (a) On (designated day), at 4:00 a.m. what were you doing?

01

--	--	--

(Interviewer: If the respondent's activity was sleep, then ask: What time did you fall asleep?)

--	--	--

\$15,000 and more?  13

\$20,000 and more?  02

less than \$40,000?  08

less than \$30,000?  14

\$30,000 and more?  15

No income  03

Don't know  04

Refused  05

less than \$50,000?  16

\$50,000 to less than \$60,000?  17

\$60,000 to less than \$80,000?  18

\$80,000 and more?  19

Section M: Contacts for follow-up

M1. INTERVIEWER:

Read the following section for each person interviewed.

This survey is part of a longer-term project to investigate the relationship between time use and other social issues. For this reason, we may need to contact your household in a year or more from now.

In case you move or change phone numbers, we would like to obtain your complete name and address. This information will be kept strictly confidential and will only be used to maintain contact with you.

Refused to provide information  7 ► Go to N1

Refused to participate in future surveys  8 ► Go to N1

M2. Name of Respondent

Given Name ►

Surname ►

**M3. Address of Respondent**

**Street and Number/Lot and Concession**

**City, Town, Village Municipality**

10. The following table summarizes the results of the study. The first column lists the variables, the second column lists the sample size, and the third column lists the estimated effect sizes.

**Topical Index of Variables for Main File**

TOPICAL INDEX TO VARIABLES

<u>VARIABLE</u>	<u>VARIABLE DESCRIPTION</u>	<u>PAGE</u>
SECTION X: GENERAL CHARACTERISTICS		
SEQNUM	Record identification number.	C1
SURMNTH	Survey month of questionnaire.	C1
FWGHT	Final weight for Main File.	C2
FORMTYPE	Form type - English or French.	C2
SECTION A: GENERAL QUESTIONS		
A4	How often do you feel rushed? Would you say it is.	C2
A5	Compared to 5 years ago, do you feel more rushed?	C3
A6	How often do you feel you have time on your hands?	C3
SECTION C: QUESTIONS ABOUT THE DESIGNATED DAY		
C2	Interviewer check: Respondent has child(ren) <15?	C3
DVC4	Wake up time of respondent's child(ren).	C4
DVC5	Sleep time of respondent's child(ren).	C4
DVC4C5	Time between 1st child awake & last child asleep.	C5
DVC6ST01	Start time of 1st child care episode.	C5
DVC6ED01	End time of 1st child care episode.	C6
DVC6ST02	Start time of 2nd child care episode.	C6
DVC6ED02	End time of 2nd child care episode.	C7
DVC6ST03	Start time of 3rd child care episode.	C7
DVC6ED03	End time of 3rd child care episode.	C8
DVC6ST04	Start time of 4th child care episode.	C8
DVC6ED04	End time of 4th child care episode.	C9
DVC6ST05	Start time of 5th child care episode.	C9
DVC6ED05	End time of 5th child care episode.	C10
DVC6ST06	Start time of 6th child care episode.	C10
DVC6ED06	End time of 6th child care episode.	C11
DVC6ST07	Start time of 7th child care episode.	C11
DVC6ED07	End time of 7th child care episode.	C12
DVC6ST08	Start time of 8th child care episode.	C12
DVC6ED08	End time of 8th child care episode.	C13
DVC6ST09	Start time of 9th child care episode.	C13
DVC6ED09	End time of 9th child care episode.	C14
DVC6	Total time spent looking after all children <15.	C14
SECTION D: PAID AND UNPAID WORK		
D1	Interviewer check: Anyone <15 living in household?	C15
DVD2	Last week, hours spent caring for hhld children.	C15
D3	Last week, did you spend time doing housework?	C15
DVD3	Last week, hours spent doing housework.	C16
D4	Last week, do unpaid work to maintain house, etc.?	C16

TOPICAL INDEX TO VARIABLES

<u>VARIABLE</u>	<u>VARIABLE DESCRIPTION</u>	<u>PAGE</u>
DVD4	Number of unpaid hours spent maintain house/yard.	C16
D5	Do you pay anyone to help you clean your house?	C17
D6	How often do you use this service?	C17
D8A	Last month, help someone else with housework?	C17
DVD8A	Hours spent helping someone else with housework.	C18
D8B	Last month, help someone repair house, yard, car?	C18
DVD8B	Hours spent helping someone repair house/yard/etc.	C18
D8C	Last month, look after another person's child?	C19
DVD8C	Hours spent looking after someone else's child.	C19
D10A	Last month, help someone w\ transport, shopping...	C19
DVD10A	Hours spent helping someone else w\ shopping, etc.	C20
D10B	Last month, give personal care to someone ill?	C20
DVD10B	Hours spent giving personal care to someone ill.	C20
D10C	Last mth, help anyone write letters, solve prob.?	C21
DVD10C	Hours spent helping someone write letters.	C21
D10D	Last month, help someone with business or farming?	C21
DVD10D	Hours spent helping someone with business or farm.	C22
D11A	Did you do any other volunteer work last month?	C22
DVD11A	Hours spent doing volunteer work.	C22
D11B	Did you help someone in a way not mentioned yet?	C23
DVD11B	Hours spent helping someone in way not mentioned.	C23

## SECTION E: PERCEPTIONS OF TIME

E2A	Do you plan to slow down in the coming year?	C23
E2B	Do you consider yourself a workaholic?	C24
E2C	When you need more time, do you cut back on sleep?	C24
E2D	End of day, often feel haven't accomplished...	C24
E2E	Worry about not spend enough time w\ family/friend	C25
E2F	Do you feel that you are constantly under stress?	C25
E2G	Do you feel trapped in a daily routine?	C25
E2H	Do you feel that you just don't have time for fun?	C26
E2I	Often feel under stress when you don't have time?	C26
E2J	Would you like to spend more time alone?	C26
TIMECR	Time crunch variable.	C27
TIMENS	Number of NOT STATED codes for section E questions	C27

## SECTION F: EDUCATIONAL, CULTURAL AND RECREATIONAL ACTIVITIES

F1	Last month, attend courses or training sessions?	C28
F2A	Were these courses credit courses?	C28
F2AA	For how many hours?	C28
F2B	Were these courses non-credit courses?	C29
F2BB	For how many hours?	C29
DVF4A	Read a newspaper last week, month or 12 months?	C29
DVF4B	Read a magazine last week, month or 12 months?	C30
DVF4C	Read a book last week, month or 12 months?	C30
F5	Was the last book you read fiction or non-fiction?	C30

TOPICAL INDEX TO VARIABLES

<u>VARIABLE</u>	<u>VARIABLE DESCRIPTION</u>	<u>PAGE</u>
DVF5AB	What type of fiction or non-fiction book was it?	C31
DVF6A	Borrow book from library last wk, mth or 12 mths?	C31
DVF6B	Listen to records, CDs last week, mth or 12 mths?	C32
DVF6C	Watch a film on VCR last week, month or 12 months?	C32
F7	During past 12 months, attend musical performance?	C32
DVF7A1	Attend a pop/rock perf. last week, mth or 12 mths?	C33
DVF7A2	Attend jazz/blues perf. last week, mth or 12 mths?	C33

G11	When at school participate in any organized sport?	C116
G12	Were you involved in competitions between schools?	C116

## SECTION H: RESPONDENT'S MAIN ACTIVITY

H1	Last week, what was your main activity?	C117
H2	Were you studying full-time or part-time?	C117
H3	Did you have a job/self-employed last week?	C118
H4	Did you have a job/self-employed in last 12 mths?	C118
H5CAP	Year you last did any paid work.	C118
H5A	Never worked at a paid job.	C119
H7	Number weeks in past 12 months you were employed.	C119
H9SICCAT	Grouped Standard Industry Codes.	C120
H10SOCCT	Grouped Standard Occupational Codes.	C121
H10PINEO	Pineo socio-economic classification of occupations	C122
H13	Number weeks in past 12 months you were employed.	C122
H14	Were you a paid worker or self-employed?	C123
H15	Did you have any paid employees?	C123
H16	About how many employees did you have?	C123
H18SICCT	Grouped Standard Industrial Codes.	C124
H19SOCCT	Grouped Standard Occupational Codes.	C125
H19PINEO	Pineo socio-economic classification of occupations	C126
H21	Are you a union member in this job?	C126
H22	Did you have more than one paid job last week?	C127
H23MAIN	How many hours/week do you work at your main job?	C127
H23OTH	How many hours/week do you work at other job(s)?	C128
H24	Interviewer: Is total in H23 30 hours or more?	C128
H25C01	Work <30 hrs/wk because of own illness/disability.	C128
H25C02	Work <30 hrs/wk because of child care resp.	C129
H25C03	Work <30 hrs/wk because of elderly care resp.	C129

TOPICAL INDEX TO VARIABLES

<u>VARIABLE</u>	<u>VARIABLE DESCRIPTION</u>	<u>PAGE</u>
H25C04	Work <30 hrs/wk because other personal/family resp	C129
H25C05	Work <30 hrs/wk because of school.	C130
H25C06	Work <30 hrs/wk because only found part-time work.	C130
H25C07	Work <30 hrs/wk because didn't want full-time work	C130
H25C08	Work <30 hrs/wk because full-time work <30 hrs.	C131
H25C09	Work <30 hrs/wk because of other reasons.	C131
H26	Which best describes the hours you usually work?	C132
H27	Have flexible schedule-choose when start/end work?	C132
H28	Overtime excluded, work any regular hours at home?	C133
H29A	Do you have a compressed work week?	C133
H29B	Do you do on call work?	C133
DVHRWK	Total number of hours worked at job(s).	C134
DWKACTY	Respondent's category of employment status.	C134

## SECTION J: SPOUSE'S MAIN ACTIVITY

J1	Int. chk: Respondent living with spouse/partner?	C135
J2	Last week what was spouse/partner's main activity?	C136
J3	Was he/she studying full-time or part-time?	C136
J4	Did he/she have a job/self employed last week?	C137
J5	How many hours did he/she work?	C137
J6	Did he/she work on (designated day)?	C137
DVJ7S1	What hours did he/she work? Start time.	C138
DVJ7E1	What hours did he/she work? End time.	C138
DVJ7S2	What hours did he/she work? Start time 2nd shift.	C138
DVJ7E2	What hours did he/she work? End time 2nd shift.	C139
J8	Last week did he/she spend time doing housework?	C139
DVJ8	Hours spouse/partner spent doing housework.	C139
J9	Last wk did he/she do unpaid work: maintain home?	C140
DVJ9	Hours spouse/partner spent doing unpaid work.	C140
J10	Interviewer check: Anyone <15 living in house?	C140
J11	Last week number hours he/she look after children?	C141
J12	What is his/her highest level of education?	C141

## SECTION K: CLASSIFICATION

K2	Is the dwelling owned by member of this household?	C142
DVBORNRC	Respondent's place of birth.	C142
DVAGRIMM	Age group at time of immigration.	C143
DVK13	Language first spoken in childhood.	C143
DVK13ESU	Do you still understand English?	C144
DVK13FSU	Do you still understand French?	C144
DVK13OSU	Do you still understand other language?	C144
DVK14	Language spoken most often at home.	C145
K15	Excl kindergarten #yrs elem/high school completed.	C145
K16	Have you graduated from high school?	C146
K17	Have you further schooling beyond elem/high school	C146
K18	What is highest level of education you attained?	C147

TOPICAL INDEX TO VARIABLES

<u>VARIABLE</u>	<u>VARIABLE DESCRIPTION</u>	<u>PAGE</u>
DVEDUC	Highest level of education obtained.	C147
DVK19COL	Derived variable for religion.	C148
K20	Other than spec. occasions, attendance at church.	C148
K21	Compared to people your age, how describe health?	C149
K22	Limited by long term physical\health problems?	C149
K24	Do you regularly have trouble going to sleep?	C149
DVK25COL	Mother's country of birth.	C150
DVK26COL	Father's country of birth.	C150
K28	Interviewer check: Review H14.	C151
K29CAP	Wage/salary before taxes and deductions.	C151
K29A	Wage or salary schedule for value in K29.	C152
DVPERINC	Derived personal income.	C152
K31	Interviewer check: Single person household?	C153
K32CAP	Number hhld members with income, excl. respondent?	C153
DVHHINC	Derived household income.	C154

## SECTION L: OTHER

DVSERN	Labour force status of household.	C135
DVAGEGR	Age group of respondent.	C154
DVSEX	Sex of respondent.	C155
DVMS	Marital status of respondent.	C155
DVHHSCAP	Total number of persons living in the household.	C155
DVPROV	Province of residence of respondent.	C156
DVCMA	Derived Census metropolitan area.	C157
DVLVGRGR	Grouped living arrangement of the respondent.	C158
DVAGRYC	Age of respondent's youngest single child.	C158
RESC0004	Number of respondent's single children aged 0-4.	C159
RESC0512	Number of respondent's single children aged 5-12.	C159
RESC1318	Number of respondent's single children aged 13-18.	C159
RESC1924	Number of respondent's single children aged 19-24.	C160
RESC2596	Number of respondent's single children aged 25+.	C160
DVAGRSP	Age group of the respondent's spouse.	C161

WEIGHT VARIABLE: FWGHTSOURCE:

General Social Survey, 1992, Derived variable from DVHRWK and questions H1, J2 and J5.

COVERAGE:

All respondents.

COMMENTS:

Full-time is defined as working 30 or more hours per week while part-time is defined as 29 or fewer hours per week. RESP refers to the respondent and SP refers to the spouse/partner. Please note that hours of work for spouse/partner is based on variable J5. For those respondents who stated their spouse/partner was on vacation last week (141), there were 52 cases where their spouse/partner did 0.0 hours of work last week. Since DVSPERN is based on number of hours of work, these spouse/partner responses have been assigned a value of 2, 5 or 8 for DVSPERN (ie <30 hours of work).

ENJOYW6	Most enjoyable activity done with other person(s)?	C144

## SECTION H: RESPONDENT'S MAIN ACTIVITY

ACT7DAYS	Main activity in the past seven days.	C145
DVK14	Language spoken most often at home.	C146
K21	Compared to people your age, how describe health?	C147
K24	Do you regularly have trouble going to sleep?	C147
DVHRWK	Number of hours worked at job(s).	C152

## SECTION J: SPOUSE'S MAIN ACTIVITY

DVJ2	Spouses main activity during the past week.	C145
J4	Did he/she have a job/self employed last week?	C145
J5	How many hours did he/she work?	C146
J6	Did he/she work on (designated day)?	C146

## SECTION K: CLASSIFICATION

DVPERINC	Derived personal income.	C148
DVHHINC	Derived household income.	C148
DVEDUC	Highest level of education of respondent.	C150

TOPICAL INDEX TO VARIABLES

<u>VARIABLE</u>	<u>VARIABLE DESCRIPTION</u>	<u>PAGE</u>
SECTION L: OTHER		
DVSEX	Derived variable - sex of the respondent.	C149
DVAGEGR	Age group of respondent.	C149
DVMS	Marital status of respondent.	C150
DVAGRYC	Age of respondents youngest single child.	C151
DVCHILD	Number of respondents children living at home.	C151
DVHHSCAP	Total number of persons living in the household.	C151
DVLVGRGR	Grouped living arrangement of the respondent.	C152
DVSPERN	Labour force status of household.	C153
DVPROV	Province of residence of respondent.	C154
DVCMA	Derived Census Metropolitan Area.	C155
TIMEWGT	Time weight for time use files.	C155

**APPENDIX G**

**Data Dictionary for Time Use Summary File**

DETAILED DESCRIPTION OF VARIABLES

**SEQNUM** Sequence number of each record.

Field: 1 Position: 1-5 Format: I5 Zero-filled

<u>CONTENT</u>	<u>VALUE</u>	<u>SAMPLE</u>	<u>POPULATION</u>
MINIMUM	207		
MAXIMUM	27578		
RANGE	27371	8996	21294313

WEIGHT VARIABLE: TIMEWGT

SOURCE:

General Social Survey, 1992.

**FORMTYPE** Type of form completed.

Field: 2 Position: 6 Format: I1

<u>CONTENT</u>	<u>CODE</u>	<u>SAMPLE</u>	<u>POPULATION</u>
ENGLISH QUESTIONNAIRE	1	7087	15985063
FRENCH QUESTIONNAIRE	2	1909	5309249

WEIGHT VARIABLE: TIMEWGT

SOURCE:

General Social Survey, 1992, page 1.

**DDAY** Diary Day.

Field: 3 Position: 7 Format: I1

<u>CONTENT</u>	<u>CODE</u>	<u>SAMPLE</u>	<u>POPULATION</u>
SUNDAY	1	1327	3042046
MONDAY	2	1352	3042046
TUESDAY	3	1258	3042042
WEDNESDAY	4	1275	3042046
THURSDAY	5	1291	3042049
FRIDAY	6	1227	3042041
SATURDAY	7	1266	3042043

WEIGHT VARIABLE: TIMEWGT

SOURCE:

General Social Survey, 1992, page 1, question B1.

DETAILED DESCRIPTION OF VARIABLES

**DVTDAY**      **Derived variable - type of day.**

Field: 4 Position: 8 Format: I1

<u>CONTENT</u>	<u>CODE</u>	<u>SAMPLE</u>	<u>POPULATION</u>
WEEKDAYS	1	6403	15210223
SATURDAY	2	1266	3042043
SUNDAY	3	1327	3042046

WEIGHT VARIABLE: TIMEWGT

SOURCE:

General Social Survey, 1992.

**DIARYDA**      **Date of interview.**

Field: 5 Position: 9-12 Format: I4

<u>CONTENT</u>	<u>VALUE</u>	<u>SAMPLE</u>	<u>POPULATION</u>
MINIMUM	102		
MAXIMUM	3110		
RANGE	3008	8996	21294313

WEIGHT VARIABLE: TIMEWGT

SOURCE:

General Social Survey, 1992.

COMMENTS:

Interviews took place January 17, 1992 to December 21, 1992. The values are ddmm where dd represents the day (01-31) and where mm represents the month (01-12).

DETAILED DESCRIPTION OF VARIABLES**SURMNTH Survey month.**

Field: 6 Position: 13-14 Format: I2 Zero-filled

<u>CONTENT</u>	<u>CODE</u>	<u>SAMPLE</u>	<u>POPULATION</u>
JANUARY	1	720	1760775
FEBRUARY	2	745	1765750
MARCH	3	712	1764983
APRIL	4	743	1769702
MAY	5	780	1770812
JUNE	6	768	1769435
JULY	7	715	1779764
AUGUST	8	697	1777450
SEPTEMBER	9	741	1780727
OCTOBER	10	763	1782018
NOVEMBER	11	821	1787963
DECEMBER	12	791	1784934

WEIGHT VARIABLE: TIMEWGTSOURCE:

General Social Survey, 1992.

COMMENTS:

The survey month indicates for which month the unit was in the sample. The survey month is not always identical to the month component (mm) of DIARYDA.

WEIGHT VARIABLE: TIMEWGTSOURCE:

General Social Survey, 1992, Derived variable from DVHRWK and questions J5, H1 and J2.

COMMENTS:

Full-time is defined as working 30 or more hours per week while part-time is defined as 29 or fewer hours per week. RESP refers to the respondent and SP refers to the spouse/partner. Please note that hours of work for spouse/partner is based on variable J5. For those respondents who stated their spouse/partner was on vacation last week (141), there were 52 cases where their spouse/partner did 0.0 hours of work last week. Since DVSPERN is based on number of hours of work, these spouse/partner responses have been assigned a value of 2, 5 or 8 for DVSPERN (ie <30 hours of work).

**APPENDIX K**

**1992 Activity Coding List and Instructions**

## 1992 Activity coding List

### **EMPLOYED WORK**

- 011 Work for Pay at Main Job
- 012 Work for Pay at Other Job(s)
- 021 Overtime Work
- 022 Looking for Work
- 023 Unpaid Work in a Family Business or Farm
- 332 Government Services (e.g. UIC) - applying for or collecting UIC
- 030 Travel During Work
- 040 Waiting/Delays at Work
- 050 Meals/Snacks at Work
- 060 Idle Time Before/After Work
- 070 Coffee/Other Breaks
- 080 Other Work Activity
- 090 Travel: To/From Work

### **DOMESTIC WORK**

- 101 Meal Preparation
- 102 Baking, Preserving Food, Home Brewing, etc.
- 110 Food (or Meal) Cleanup
- 120 Indoor Cleaning
- 130 Outdoor Cleaning
- 171 Gardening/Grounds Maintenance - raking cut grass or leaves
- 182 Stacking and Cutting Firewood
- 140 Laundry, Ironing, Folding
- 151 Mending/Shoe Care
- 152 Dressmaking and Sewing
- 161 Interior Maintenance and Repair
- 162 Exterior Maintenance and Repair
- 163 Vehicle Maintenance
- 164 Other Home Improvements
- 171 Gardening/Grounds Maintenance
- 172 Pet Care
- 173 Care of House Plants
- 181 Household Administration, e.g. Paying Bills, Menu Planning, etc.
- 183 Other Domestic Work (not specified above)
- 190 Travel: Domestic

### **CARE OF CHILDREN**

- 200 Baby Care - Household Child
- 210 Child Care - Household Child

### **ORGANIZATIONAL, VOLUNTARY AND RELIGIOUS ACTIVITY**

- 600 Professional, Union, General
- 610 Political, Civic Activity
- 620 Child, Youth, Family Organization
- 630 Religious Meetings, Organizations
- 640 Religious Services/Prayer/Bible Readings
- 651 Fraternal and Social Organizations (e.g. Lions' Club)
- 652 Support Groups (e.g. Al-Alon, AA)
- 660 Volunteer Work, (Organizations)
- 671 Housework and Cooking Assistance
- 672 House Maintenance and Repair Assistance
- 674 Transportation Assistance
- 675 Care for Disabled or Ill
- 676 Correspondence Assistance
- 630 Religious Meetings, Organizations - volunteer work dealing exclusively with church
- 680 Other Organizational, Voluntary and Religious Activity
- 610 Political, Civic Activity - hearings or meetings at city hall
- 691 Travel: Civic & Voluntary Activity
- 692 Travel: Religious Services
- 674 Transportation Assistance

### **ENTERTAINMENT (Attending)**

- 701 Professional Sports Events
- 702 Amateur Sports Events
- 711 Pop Music, Concerts
- 712 Fairs
- 713 Zoos
- 720 Movies, Films
- 730 Opera, Ballet, Theatre
- 741 Museums
- 742 Art Galleries
- 743 Heritage Sites
- 751 Socializing (No Meal)
- 752 Socializing (w/Meal, Excl. Restaurants)
- 753 Socializing (at non-private residence)
- 760 Socializing at Bars, Clubs (no meal) - watching home movies
- 780 Other Social Gatherings (Weddings, Wakes)

**Care of children (continued ...)**

- 220 Helping/Teaching/Reprimanding  
281 Other Child Care - visiting with child's teacher  
230 Reading/Talking/Conversation with Child  
240 Play with Children  
250 Medical Care - Household Child  
260 Unpaid Babysitting  
281 Other Child Care  
673 Unpaid Babysitting  
291 Travel: Household Child

**SHOPPING AND SERVICES**

- 301 Groceries  
302 Clothing, Gas, etc.  
303 Take-out Food  
310 Shopping for Durable  
320 Personal Care Services (e.g Haircut)  
331 Financial Services (e.g. banking)  
332 Government Services (e.g. UIC)  
610 Political, Civic Activity - jury duty or attending court  
340 Adult Medical and Dental Care  
350 Other Professional Services  
361 Automobile Maintenance and Repair  
362 Other Repair Services (e.g. T.V., Appliance)  
370 Waiting for Purchases or Services  
380 Other Shopping and Services  
350 Other Professional Services - take pet to vet  
390 Travel: Goods/Services

**PERSONAL CARE**

- 400 Washing, Dressing  
183 Other Domestic Work - packing  
410 Personal Medical Care (Home)  
272 Medical Care - Household Adults  
675 Care for Disabled or Ill  
271 Personal Care - Household Adults  
282 Other Care to Household Adults  
671 Housework and Cooking Assistance  
672 House Maintenance and Repair Assistance  
674 Transportation Assistance  
675 Care for Disabled or Ill  
676 Correspondence Assistance  
677 Unpaid Help for a Business or Farm

**Entertainment (attending) (continued ...)**

- 914 Other Television Viewing (home recorded movies)  
791 Travel: Sports, Movies & Other Entertainment Events  
792 Travel: Socializing (In Homes)  
793 Travel: Other Socializing

**SPORTS AND HOBBIES (PARTICIPATION)**

- 800 Coaching  
801 Football, Baseball, Hockey, etc.  
802 Tennis, Squash, Racquetball, etc.  
803 Golf, Miniature Golf  
804 Swimming, Waterskiing  
805 Skiing, Ice Skating, etc.  
806 Bowling, Pool, etc.  
807 Exercises, Yoga, Weight Lifting  
808 Judo, Boxing, Wrestling, Fencing  
809 Rowing, Canoeing, Kayaking and Sailing  
810 Other Sports, e.g. Frisbee, Catch  
815 Horseback Riding, Rodeo, Jumping, Dressage  
816 Other Outdoor Activities - Excursions  
822 Biking  
811 Hunting  
812 Fishing  
813 Boating  
814 Camping  
809 Rowing, Canoeing, Kayaking and Sailing  
821 Walking, Hiking  
822 Biking  
831 Hobbies Done Mainly for Pleasure  
832 Hobbies Done For Sale or Exchange of Items  
841 Domestic Home Crafts Done Mainly for Pleasure  
842 Domestic Home Crafts Done For Sale or Exchange of Items  
850 Music, Theatre, Dance  
861 Games, Cards, Arcade  
862 Video Games/Computer Games  
863 General Computer Use (Not Games)  
871 Pleasure Drives as a Driver  
872 Pleasure Drives as a Passenger in a Car  
873 Other Pleasure Drives (e.g. bus tour)  
880 Other Sport or Active Leisure  
863 General Computer Use (Not Games)  
891 Travel: Active Sports

**Personal care (continued ...)**

- 678 Other Unpaid Work  
430 Meals at Home/Snacks/Coffee  
431 Other Meals (non-restaurant/non-socializing)  
440 Restaurant Meals  
450 Night Sleep/Essential Sleep  
460 Incidental Sleep, Naps  
470 Relaxing, Thinking, Resting  
480 Other Personal Care or Private Activities  
491 Travel: Restaurant Meals  
492 Travel: Other Personal Activities  
292 Travel: Household Adult

**SCHOOL AND EDUCATION**

- 500 Full-Time Classes  
511 Other Classes (Part-Time)  
512 Credit Courses on Television  
520 Special Lectures: Occasional  
530 Homework: Course, Career/ Self-Development  
540 Meals/Snacks/Coffee at School  
550 Breaks/Waiting for Class  
560 Leisure and Special Interest Classes  
580 Other Study  
590 Travel: Education

**Sports and hobbies(participation) (cont ...)**

- 893 Travel: Hobbies & Crafts For Sale or Exchange  
894 Travel: Other Active Leisure  
892 Travel: Coaching

**MEDIA AND COMMUNICATION**

- 900 Listening to the Radio  
911 Watching Television (regular scheduled television)  
912 Watching Television (time-shifted television)  
913 Watching Rented or Purchased Movies  
914 Other Television Viewing (home recorded movies)  
512 Credit Courses on Television  
920 CD's, Tapes, Records, Listening  
931 Reading Books  
932 Reading Magazines  
940 Reading Newspapers  
950 Talking, Conversation, Phone  
961 Reading Mail  
962 Other (Writing letters)  
980 Other Media or Communication  
990 Travel: Media or Communication

**RESIDUAL CODES**

- 001 Missing Gap in Time  
002 Refused Information

## 1992 ACTIVITY CODING INSTRUCTIONS

### 5.4 **GENERAL INFORMATION FOR COMPLETING SECTION B - TIME USE DIARY** (excerpt from Interviewer's Manual GSS 7-4)

Section B deals with a different interviewing concept. Pay particular attention to the instructions concerning this section.

#### **ITEM B1**

##### **Designated Day**

You should have determined the "designated day" assigned to the respondent from Item 6 on the label of the Selection Control Form. The questions asked should refer to the designated day indicated in Item 6. Mark the appropriate circle for the designated day in Item B1 of the questionnaire.

The designated day begins at 04:00 a.m. and continues until 04:00 the next day. If the respondent feels that this is an unusual time to start accounting for the day's activities, explain that this time is chosen because we want to start the diary before the respondent's day begins. Beginning at 4:00 a.m. ensures this in most cases.

##### **Introduction to the Respondent**

Once you have marked the designated day circle, read the introduction to the respondent. If you sense that the respondent needs further explanation, read one of the (optional) examples of a designated day. Select the example that seems most appropriate based on the information you have just collected on the GSS 7-1. For example, if the person lives alone, read Example 2.

It is also important that the respondent describe what he/she actually did on the designated day, not what is usually done on that particular day of the week. Make sure the respondent understands for which day you are collecting information.

### 5.5 **SECTION B: TIME USE DIARY**

#### **ITEM B2**

Item B2 is made up of 50 "episodes" each consisting of five questions. These episodes, are numbered from 1 to 50 and their component questions are identified with the letters (a) to (e).

For each episode all five questions must be read exactly as they appear. The only exceptions are:

1. When it is evident from the activity of the respondent that the location is the same, it is not necessary to continually ask question (d) "Where were you?" .
2. When the activities are personal in nature (for example, sleep, sex, or other personal care), do not ask question (e) "Who was with you?" However, if the respondent volunteers this information, mark the appropriate circle.

**Question (a) (Episode 1) On (designated day), at 4:00 a.m. what were you doing?**

**Question (a) (Episode 2, etc) And then, what did you do next?**

- (i) For episode 1 only, question (a) on the first page of question B2, is worded differently to help you ask about daily activities for the designated day beginning at "04:00 a.m.".
- (ii) Describe the activity directly beside the three-digit box. Do not mark the three-digit box.
- (iii) Collect enough detail to allow your Senior Interviewer to categorize each activity according to your DAILY ACTIVITIES CODE LIST. Do not lump many activities into one. For example, instead of "taking care of my baby" determine the kind of activity such as, "playing outdoors", or "reading to the baby" etc.

Use your DAILY ACTIVITIES CODE LIST (GSS 7-12) to help you record enough detail about the respondent's activities. For example, it is not sufficient to record "housework all day". Use your interviewing skills to find out what kind of housework this was, such as: "laundry, ironing" or "gardening" or "meal preparation" and "meal clean-up".

**NOTE:** The Daily Activities Code List has been provided to you for reference purposes only. Your Senior Interviewer is responsible for coding the activities for each questionnaire.

- (iv) Details regarding the respondent's precise activities at work are not required. Only coffee breaks, lunch breaks or out of the ordinary activities such as medical appointments need to be recorded.

Some activities that are of interest for this survey are often not reported. For example:

- sorting or reading junk mail;
- paying or checking bills;
- short walks to and from bus stops, stores, etc.;
- listening or talking to children or helping them with homework;
- any activity performed to help elderly or disabled people should be reported as such. Report "Did groceries for disabled mother" not "Did groceries".

- (v) Normally a respondent will report **ONE MAIN ACTIVITY** such as "getting dressed", "eating breakfast", or "travelling to work". If the respondent reports more than one main activity ask him/her to determine the main one.

When the respondent reports **MORE THAN ONE ACTIVITY HAPPENING AT THE SAME TIME**, such as "talking with my son and watching T.V." ask the following question to determine the main activity:

*"Which of these activities would you consider to be the main activity?" Response: "mainly watching T.V."*

*Circle the main activity.*

If the respondent reports **MORE THAN ONE MAIN ACTIVITY** for the same time period, and the activities took place in obvious chronological order, then make separate entries for each activity.

*Example:*

*If the respondent "put away groceries and prepared dinner" enter both as two separate activities, mark separate time periods and repeat Questions (d) and (e) in each case.*

If A FEW ACTIVITIES ARE BROKEN UP AND INTERMINGLED, make only one entry for each and enter the total time for each one. For example, the respondent tells you that:

- 1) She put a load of laundry in the washer (9:00 to 9:05)
- 2) Made a cake and put it in oven (9:05 to 9:15)
- 3) Did some vacuuming (9:15 to 9:20)
- 4) Transferred the wash to the dryer (9:20 to 9:25)
- 5) Took cake out of oven (9:25 to 9:27)
- 6) Finished vacuuming (9:27 to 9:40)
- 7) Iced the cake (9:40 to 9:55) (**TOTAL 55 MINUTES**)

These activities could be recorded as follows:

Did laundry 9:05 to 9:10 (total 10 minutes)  
Baked a cake 9:10 to 9:37 (total 27 minutes)  
Vacuumed 9:37 to 9:55 (total 18 minutes) (**TOTAL 55 MINUTES**)

(vi) A new episode should be used each time the activity, the location or the social contact changes. For example, two episodes must be completed if the respondent reports that she took her child to the park from 10:00 to 11:00 a.m. and that her husband joined them there from 10:30 to 11:00 a.m. The entries in this case should contain the following information:

- a) Watched child in park
  - b) 10:00
  - c) 10:30
  - d) Other place
  - e) Child of household.
- 
- a) Watched child in park
  - b) 10:30
  - c) 11:00
  - d) Other place
  - e) Child of household and spouse.

(vii) Episodes have no predetermined length, however, you should probe if the respondent reports a length of time that does not seem reasonable for a given activity. For example:

If the respondent reports gardening from 10:00 a.m. to 3:00 p.m. Probe for lunch or rest breaks. Any interruption lasting more than 5 minutes should be recorded as a separate entry. So instead of having an entry for gardening from 10:00 a.m. to 3:00 p.m. there would be three entries for this time period if there was one interruption. For example:

Gardening from 10:00 to 12:00  
Had Lunch from 12:00 to 12:20  
Gardening from 12:20 to 15:00

- (viii) If the respondent reports watching television, determine whether he/she was watching
- regular scheduled TV programs;
  - tapes recorded from television for later viewing;
  - rented or purchased tapes;
  - tapes recorded by using a video camera (home movies).

Refer to Codes 911 to 914 on the Daily Activity Code Sheet (GSS 7-12).

- (ix) If the respondent reports reading, determine whether he/she was reading a) books, b) magazines or c) the newspaper.

**Question (b) When did this start? and**

**Question (c) When did this end?**

Record all activities that lasted more than 5 minutes. Try to discourage respondents from reporting very short activities which lasted only a few minutes.

- (i) Mark the start and end time (using the 24-hour clock) in the four-digit box; the first two boxes are for hours and the last two are for minutes. For example:

|0|2|4|5| or |1|6|0|5|

- (ii) Note that 4:00 a.m. has been pre-printed in the first start time slot.

If the respondent's first activity was sleep, ask what time he/she fell asleep the night before and enter the time in the space provided.

This question is asked in order to measure the amount of sleep on a given night. This would otherwise be missed as the designated day begins only at 4:00 a.m.

**NOTE:** We are only interested in the time the respondent first went to bed. If the respondent got up between the time he/she went to bed and 4:00 a.m., for example, to care for a child, do not record this activity in the diary. However, do record this activity if it happened after 4:00 a.m.

- (iii) The end time of one activity should be the start time of the next. For example, "travelled to work from 07:30 to 08:00" and "worked from 08:00 to 12:00 noon".

If the activity is work, probe for coffee breaks or other breaks (for example, doctor's appointments, shopping at lunch time, etc.) during the work day.

- (iv) Be careful not to leave gaps in time between activities such as "I got dressed from 06:30 to 06:45" and "ate breakfast from 07:00 to 07:15".

- (v) Also avoid overlaps of time between activities. For example, "I ate dinner from 18:00 to 18:30" and "I washed dishes from 18:15 to 18:40".

- (vi) Activities should be reported in chronological order. However, if an activity was forgotten, it can be recorded at the end of the diary or at any point that it is remembered. What is important is to account for the full 24 hour period.

**NOTE:** Although the designated day ends at 4:00 a.m. do not automatically enter 4:00 a.m. in the end time box for the last activity. For example, if the respondent went to bed at midnight, ask "When did this end" and enter the time he got up, not 4:00 a.m. in the answer box.

**Question (d) Where were you?**

- (i) The respondent may be at a particular location or in transit between locations. There are ten categories available. Mark only one appropriate response:

**PLACE**

- ° **R's Home** - the respondent is in his/her home.

In some cases, it may be difficult to distinguish between the respondent's workplace and his home. For example, a mother babysits children in her home, an insurance agent does most of his work from an office in the basement. In cases where the respondent works from home, mark "R's Home" and not "Workplace" unless the respondent's home and workplace are in the same building but have a different address (e.g., a hairstylist has a shop at 201 Main Street and lives in an apartment above the shop at 201B Main Street).

**Special cases:**

- i) if the respondent was at their vacation home or cottage during the designated day, code part (d) - **Respondent's Home**;
- ii) if the respondent was at a friend's or relative's vacation home or cottage during the designated day, code part (d) - **Someone Else's Home**;
- iii) if the respondent was at commercial vacation home or cottage during the designated day, code part (d) - **Other Place**;
- iv) if the respondent was at a new home or second home during the designated day, code part (d) - **Respondent's home**.

- ° **Work Place** - the respondent is in his/her place of work.

Mark this category for travelling sales persons travelling between appointments, taxi drivers, bus drivers and couriers when they are on the job, not one of the IN TRANSIT categories. Volunteers are not to be considered in their place of work even if the work is regularly performed in an institution. In these cases "Other" is to be marked.

- ° **Someone else's home** - the respondent is in a private home other than his or her own.

- ° **Other Place** - All other places not included above. For example shopping centre, school, park etc.

## **OR IN TRANSIT**

When one of the "IN TRANSIT" categories is marked, the description of the activity entered in part a) of the question must include the destination of travel. For example: "Drove to grocery store", "Cycled to work".

If, in part a), the respondent reported going for a car ride, walking or cycling for **pleasure or exercise**, mark "Other place" in part d), not "In transit: Car, walk or bicycle".

- ° **Car (driver)** - Mark this circle **only** when the respondent drove to travel to a destination. For example "Drove to work" is entered in part a) of the question.
- ° **Car (passenger)** - Mark this circle **only** when the respondent travelled in a car as a passenger in order to travel to a destination.
- ° **Walk** - Mark this circle **only** when the respondent walked to travel to a destination.
- ° **Bus or Subway** - Includes street cars, commuter trains or other public transit.
- ° **Bicycle** - Mark this circle **only** when the respondent cycled to travel to a destination.
- ° **Other** - For example, airplane, train, motorcycle.

### **Question (e) Who was with you?**

- (i) This question tries to determine if the respondent was alone during the activity reported or if someone else was **participating** or **interacting** with the respondent for most of the duration of the activity.

It may be difficult to make a distinction between a respondent doing something alone or doing something with someone else. For these difficult cases accept the respondent's perception of whether he/she was alone or with someone else.

- (ii) Below are some examples to help you determine those cases which are difficult and to help the respondent give you a more precise response:

- ° Consider the respondent "**Alone**" if he/she is watching television in one room while other household members are in another room. If other household members were watching television with the respondent mark the appropriate category.
- ° Consider the respondent "**Alone**" if he is making dinner while his spouse is reading the newspaper at the kitchen table. Mark "**Spouse/partner**" if the spouse is helping the respondent make dinner or interacting in some other way.
- ° If the children of the household under 15 years of age are present in the same room, mark "**child(ren) of the household**" even if they are not actually participating in the activity or interacting with the respondent.
- ° Consider the respondent "**Alone**" when there are no co-workers in the workplace. If the respondent works for a firm with other co-workers, mark "**Other persons**".

- If the respondent is in the company of strangers while shopping, riding a bus or obtaining other services, consider that person "Alone" even if he/she speaks to the store clerk, hairdresser or doctor. Otherwise, if a friend is with the respondent, consider that person with someone else and mark "Friend(s)" or "Other persons".
- (iii) **Multiple responses** are permitted in Question (e) (except for cases where the respondent is "Alone"). Mark the appropriate category or categories.
- **Alone**
  - **Spouse/Partner**
  - **Child(ren) of Household** (include only children covered by the GSS 7-1). If the respondent was with his/her child mark "Other Family Member(s)" if the child does not live in the household.
  - **Other Family Member(s)** (include parents, brothers, sisters, grandchildren, children and other relatives even if they do not belong to the household covered by GSS 7-1)
  - **Friend(s)**
  - **Other Person(s), for example, co-workers or neighbours.**

Continue with "And then, what did you do next?" for the next activity and so on.

#### **5.6 RESPONDENTS REPORTING MORE THAN 50 EPISODES**

Enough pages have been provided in Section B of the questionnaire for recording up to 50 episodes. If more than 50 activities are reported, you should:

- (i) use a second copy of the GSS 7-2 questionnaire to complete the respondent's daily activities;
- (ii) indicate the number of extra forms used;
- (iii) transcribe the telephone number, the label identification number and the page-line number in the space provided on each extra GSS 7-2;
- (iv) Insert any extra completed GSS 7-2 questionnaires in the main questionnaire once the interview is over.

## **A.1 CODING INSTRUCTIONS (excerpt from Procedures Manual GSS 7-3)**

The following pages provide information on:

- general coding and editing instructions
- the Daily Activities Code List Supplement which provides details on each of the activity categories.

Senior Interviewers must code the daily activities entered in Section B of the GSS 7-2 by the interviewer on a daily basis.

Coding must be completed within one working day after the interview since interviewers would likely have difficulty recalling the information otherwise.

At the beginning of the survey it is imperative that the Seniors carefully edit the interviewer's work in order to catch and correct any errors early in the survey.

Saturday's work must be reviewed MONDAY.

**NOTE:** Make a note of those activities which were difficult to code. Forward your notes to Head Office at the end of the data collection period for each month of the survey.

**USE A COLOURED PEN (RED PREFERABLY) TO MAKE CORRECTIONS FOR THE CODING.**

You will assign one of the following codes to each activity entered in Section B:

**ACTIVITY CODES 011 - 990 or**

NOT CODED	000	The reported activity does not fit into any of the activity categories (011 to 990).
MISSING	001	There has been a gap in time between activities, or the respondent could not remember the activity and therefore there is no activity description.
REFUSED	002	The respondent refused to give information on all or part of the day.

Ensure that there are no overlaps in the time for the start and finish of one activity with the start and finish of another.

### **Groups of Activity Codes**

The activities are coded according to 10 groups:

011 - 090	Employed Work
101 - 190	Domestic Work
200 - 292	Care Giving for Household Members
301 - 390	Shopping and Services
400 - 492	Personal Care
500 - 590	School and Education
600 - 692	Organizational, Voluntary and Religious Activity
701 - 793	Entertainment (Attending)
801 - 894	Sports and Hobbies (Participation)
900 - 990	Media and Communication

**NOTE:** A code with 8 in second position implies other activities not already covered in the previous codes for that group.

A code with 9 in the second position is used to cover the time spent to travel for an activity in that group.

When there is an obvious error within the daily activities section, the first step is to consult with the interviewer who completed the questionnaire. If the interviewer can remember the details needed, or the correct sequence, etc., make the correction directly on the questionnaire.

If the interviewer cannot recall the error/problem, follow the directions for editing outlined below.

#### Time - 24 hours

Total time for activities done on the reference day must cover 24 hours or more. That is, from 4:00 a.m. to 4:00 a.m., plus the time the respondent went to bed on the day preceding the designated day and the time he awoke on the day following the designated day. Check to see that the "time ended" for each activity is the same as the "time began" for another activity, i.e.:

DROVE TO THE STORE	11:30 - 11:45
SHOPPED FOR A HAMMER	11:45 - 12:05

If there are gaps in time or overlapping times, edit them using the instructions below.

#### Gaps

When a gap of 10 minutes or less exists between the time one activity ended and the next activity began, allocate 1/2 of the time to the activity preceding the gap and 1/2 of the time to the activity following the gap, i.e.:

	WAS	EDITED TO
SHOWERED	7:10 - 7:25	7:10 - 7:30
ATE BREAKFAST	7:35 - 7:55	7:30 - 7:55

If the gap is longer than 10 minutes, edit in a "time began" and "time ended" for this time period at the end of the activity entries. Label the edited time as "MISSING" and code it 001. Leave items (d) and (e) blank.

#### Overlaps

If the interviewer can remember the error in overlapped times, directly correct the overlap on the questionnaire. If the interviewer cannot remember the overlap, leave it as it is.

	WAS	EDITED TO
WATCHED TV	11:00 - 12:00	11:00 - 11:50
EATING	11:40 - 12:15	11:50 - 12:15

In the above example, there is a 20 minute overlap which the interviewer remembered making. The correct times were then marked directly on the questionnaire.

## **Zero Time Activities**

This is the case when the start time and end time of an activity are the same. When this occurs, leave the times as they are and code the activity as usual.

## **Refusal**

If the respondent has given no activities for the whole day, mark the activity as REFUSAL and code it 002. Mark the "time began" as 4:00 and the "time ended" as 4:00.

If they refuse only certain time periods, add these time periods at the end of the activity entries and code 002.

## **Getting up/going to bed**

"Going to bed" and "getting up" are only coded as separate activities if a segment of time is allotted specifically to them, in which case code "400". If they have been mentioned, but no time has been allocated to them, then ignore them. For example:

GOT UP AND GOT READY FOR WORK	8:00 - 8:15
----------------------------------	-------------

It is not correct for interviewers to write "got ready for work", because it is not specific enough to code. If, however, "getting ready" has been written in, it should be coded "480" Other personal care.

## **Helping Others**

Helping other household adults, for example, "helping my husband paint the garage" - code the task performed. In this example code 162.

- \* Helping household children - code 220.
- \* Helping someone from outside household who is disabled - code 675
- \* Drove husband to work - code 292.
- \* "helping at the bake sale at the church" - code 660.

## **Meals**

Meals can be coded in various activity groups. Here are some examples:

- 1) "Coffee" at a restaurant = restaurant meal, code 440.
- 2) "Coffee" at home, code 430.
- 3) Having friends over for dinner - code 752.

If respondent "ate lunch" in between work episodes and it was not at the workplace or at home (i.e. "other" has been marked with no further detail) code 050 unless there is travel time before and after the meal to indicate that it was a restaurant meal code (code 440).

## **Feeding Children**

If the respondent reports "fed the baby" code all the time to Baby Care, code 200.

If the respondent reports "fed the kids" code all the time to Child Care, code 210.

When the respondent says "got dinner ready", "fixed dinner", etc., code under Meal Preparation, code 101.

## **Washing Car**

If "washed the car" was at the respondent's home, code 163, if it was away from home, code 361.

## **Reading**

The type of reading should be specified, code under appropriate category:

### **Reading Books, Magazines**

- 931     Reading Books
- 932     Reading Magazines
- 940     Reading Newspapers

### **Letters and Mail**

- 961     Reading Mail

## **Waiting**

Code waiting activities in the category of what they are waiting for, i.e., "Waiting to eat" - code 430, waiting for service while shopping - code 370, waiting for classes - code 550, waiting for employed work purposes - code 040, waiting for public transportation to go to work - code 090, waiting for a professional football game to start - code 701.

## **Multiple Activities Reported**

For some cases, two or more activities may have been written together for one time period. Normally the interviewer should have circled the main activity. If the respondent felt that both were primary activities you must divide the time equally among the two activities if the interviewer had not done so. (Add odd minutes to the first activity you mark down.) Edit multiple activities at the end of the activity entries and cross out the original entry.

For example:

### **WAS**

Start time	End time
18:00	Watched T.V. and ate dinner 18:45

### **EDITED TO**

Start time	End time
18:00	Watched T.V. 18:23
18:23	Ate dinner 18:45

## **Travel**

Note: When social contact changes a new episode must reflect this change, even if the same type of activity is performed (e.g. travelling home from work with a co-worker, then dropping off co-worker at their home, then proceeding to respondent's home).

### **Purpose of Trip**

Travel is generally associated with the purpose of the trip, both going to and coming back from. For example, if "drove to the grocery store" took 15 minutes and "drove home" took another 15 minutes, code both 15 minutes segments as travel for shopping (390).

- Special case # 1: if travel is to visit a friend or relative and various activities have taken place while visiting, still code the travel as travel to a friend's - code 791.
- Special case # 2: if travel is to work and the respondent is dropping off a child at day care, record travel for child care (291) then travel to work (090).

### **Multiple Purpose Trips**

In the case of a trip that had multiple purposes, i.e.,

Biked to drugstore	Code 390
Shopped for toothbrush	Code 302
Biked to my friend's house	Code 791
Visited	Code 751
Biked home	Code 791

Code each travel segment as travel related to the next activity, then code the last segment of the trip ("biked home") as travel time related to the last activity ("visited").

### **Trip within a trip**

If there is a clear trip within a trip, then code travel to and from as you would if respondent went there and back from home. For example:

Drove to school	Code 590
Attended Class	Code 500
Drove to store	Code 390
Shopped for clothes	Code 302
Drove back to school	Code 390
Went back to classes	Code 500
Drove home	Code 590

### **Travel To and From Respondent's Work and Intervening Trips**

Travel related to work (code 090) is to capture only the time the respondent spends commuting to get to his/her place of work and to get back home at the end of the work day. Any intervening trip is to be coded as travel related to the purpose of the activity (i.e., travel to and from lunch at a restaurant will be coded as travel related to restaurant meals - code 491).

### **Travel While Working**

If the respondent is travelling on work time for a work related reason then code 030, which is travel during work. If the travel during work is not related to work, code to the related activity.

### **Travel Shopping**

Code "picked up friend to go shopping" as travel shopping (not social).

### **No travel reported**

If travel has not been reported and travel is implied by a change of place, consult with the interviewer and try to resolve the seeming inconsistency. If the interviewer remembers a travel segment edit this time in at the end of the activity entries. If the interviewer does not remember a travel segment leave the activities as they are.

### **Television Viewing**

When a respondent reports watching television, the interviewer should probe to find the type of television viewing, whether it was regular schedule television (e.g. newscast) - code 911, a television program that was taped for later viewing (i.e time-shifted television) - code 912 or a rented or purchased VCR tape -code 913. If the respondent was viewing a camcorder tape then the appropriate code to be assigned is code 914. If the respondent was viewing an educational program on TV for credit purposes then the appropriate code to be assigned is code 512.

### **Assistance to Member of Another Household**

When a respondent reports assisting a member of another household, including relatives and friends not living in their household, the interviewer should probe to determine the type of help given to the member.

### **Conversation**

For conversations that take place on the phone, the interviewer should have marked "alone" in part (e) while those conversations which are face-to-face should have the appropriate category marked in part (e) (e.g. spouse, children of household, friend).

## **A.2 DAILY ACTIVITIES CODE LIST - SUPPLEMENT**

Details on all activity categories, unusual cases and cases coded elsewhere.

R. - denotes Respondent

## **EMPLOYED WORK 011 - 090**

### **011 WORK FOR PAY AT MAIN JOB**

Normal work; activities at the **main job** including work brought home, travel which is part of the job; "working", "at work".

Work activities for pay done in the home when home is the main workplace.

Part-time job for students.

#### Examples

Working at home in the kitchen  
Attended a lunch meeting until two  
Negotiating a contract in office  
Bought groceries for client  
Warmed up truck, checked tires and brakes - (truck driver)  
Repaired plumbing of tenant  
Made rounds, visited patients  
Delivering mail on post route  
Did flight plan - called weather service

#### Unusual cases

Work activities related to attending conference or convention away from regular place of work.  
On-the-job travelling for bus, taxi and truck drivers.  
Babysitting or house cleaning for pay (as R's main job).  
Paid babysitting performed by a teenager.

#### Cases coded elsewhere

021 Overtime, specified as such by R.  
450 Sleep at motel while on work trip.

### **012 WORK FOR PAY AT OTHER JOB(S)**

Normal work; activities at **other job(s)** including work brought home, travel which is part of the job; "working", "at work".

Work activities for pay done in the home when home is the main workplace.

### **021 OVERTIME WORK**

Overtime specifically differentiated from normal work by R.

Case coded elsewhere

010 Overtime where R does not specifically call the work overtime.

**022 LOOKING FOR WORK**

Job search; looking for work, including visits to employment agencies, phone calls to prospective employers, answering want ads.

Example

Picked up job applications  
Distributing resumes

Case coded elsewhere

332 Applying for or collecting unemployment insurance or welfare.

**023 UNPAID WORK IN A FAMILY BUSINESS OR FARM**

Work done for a family business or farm to which a salary or wage was not paid.

Examples

Working on fishing gear

- if H1 is not equal to 1 and H10 = fisherman then **Code 023** (since fishing is seasonal work this should be placed in unpaid work for family business);
- if H1 = 1 and H19 = fisherman then **Code 011**.

**030 TRAVEL DURING WORK**

Travel during work that is specifically differentiated from normal work yet part of work.

Examples

Delivered forms to hospital offices  
Unloaded - went to first floor to sell  
Contractor was travelling between job sites

Unusual cases

Travelling to work conference.  
Walked to park with children who respondent was babysitting  
Drove around looking for parts to repair farm equipment

Cases coded elsewhere

- 010 Travel within workplace.
- 010 Travel as part of main job, e.g., bus driver, delivery person, travelling salesperson.
- 090 Trip to or from work.

**040 WAITING/DELAYS AT WORK**

Waiting time or interruption during work that is specifically differentiated from normal work; e.g., machine breakdown, supply shortage.

Examples

Read while waiting for a plane  
Waited in car for xerox copying to be done

Cases coded elsewhere

- 010 Waiting time which R does not specifically designate.
- 070 Coffee breaks.

**050 MEALS/SNACKS AT WORK**

Meals or snacks at the place of work (e.g., meals at company cafeteria or outside on the grounds).

Cases coded elsewhere

- 430 Meals at home.
- 431 Other meals/snacks, non-socializing (excl. restaurants).
- 440 Restaurant meals.

**060 IDLE TIME BEFORE/AFTER WORK**

Non-working time spent at R's workplace before starting or after finishing normal work, e.g., changing clothes, talk with fellow employees (usually activities occurring in the time period between the trip to or from work.)

Examples

Went to desk, had coffee, read paper  
Unlocked office, made coffee

Cases coded elsewhere

- 440 Have breakfast at restaurant before going to work.
- 760 Have drink with fellow employees at bar after to work.

**070 COFFEE/OTHER BREAKS**

Prescribed non-working breaks or period, e.g., coffee-breaks.

**080 OTHER WORK ACTIVITY**

Other activities related to work not described in above categories.

**090 TRAVEL TO/FROM WORK**

Travel to and from the workplace including time spent waiting for transportation .

Travel (including waiting time related to travel) for job search, unemployment benefits.

**DOMESTIC WORK 100 - 190****101 MEAL PREPARATION**

Include time spent preparing meals or snacks, and packing lunches for the next day.

Examples

Got apple from kitchen

Went in the kitchen, fixed a cup of coffee

Reheated dinner in microwave

Started dinner and set table

Cooking - cleaning kitchen; party preparation

Prepared lunches for kids and myself

Case coded elsewhere

183 Putting groceries away.

**102 BAKING, PRESERVING FOOD, HOME BREWING, ETC.**

Include all activities associated with non-meal preparation such as baking, preserving (canning or freezing) and the home brewing of beer or wine.

**110 FOOD (OR MEAL) CLEANUP**

Cleaning up after meals, baking or preserving: e.g. doing dishes, putting away food, straightening out the kitchen.

Example

Cleared up, unloaded dishwasher, reloaded

Case Coded Elsewhere

- 120      Cleaned kitchen (unrelated to specific meals).

**120    INDOOR CLEANING**

Indoor (routine) cleaning; e.g., dusting, making beds, picking up, washing windows, vacuuming, fall/spring cleaning, work around the house, etc.

Examples

Cleaning out refrigerator

Reorganized the cupboards

Lined kitchen shelves

**130    OUTDOOR CLEANING**

Outdoor cleaning; e.g., sidewalks, garbage, garbage removal, snow shovelling, storm windows, cleaning garage, etc.

Examples

Cleaned and stored camping equipment

Swept - washed out garage

Cases coded elsewhere

- 171      Mow the lawn.

- 190      Took garbage to dump.

**140    LAUNDRY, IRONING, FOLDING**

Laundry and ironing, includes washing, drying and hanging clothes on the line.

**151    MENDING/SHOE CARE**

Mending and upkeep of clothes, especially maintenance activities such as shining shoes.

**152    DRESSMAKING AND SEWING**

Example

Hemmed a dress

Case coded elsewhere

841 Sewing a dress when done as a hobby (not for sale or exchange).

**161 INTERIOR MAINTENANCE AND REPAIR**

Include all home repairs and home operations done inside the residence; e.g. painting a bedroom, plastering, furnace care, plumbing, furniture.

Examples

Tinkering around the house

Painting bedroom

Installed fire alarm in kitchen

Setting up CD player

**162 EXTERIOR MAINTENANCE AND REPAIR**

Include all outside maintenance and repairs; e.g. painting the house, fixing the roof, repairing the driveway (patching).

Example

Painting the trim on the house

**163 VEHICLE MAINTENANCE**

Car, truck, motorcycle and bicycle maintenance; necessary repairs and routine care to cars; change oil, change tires, washed car, "worked on car" except when clearly a hobby (code 830).

Performed on personally owned vehicles only.

Examples

Washed car in driveway

Helped husband change oil

Maintenance on bicycle

Tuned up motorcycle

Case coded elsewhere

831 Auto repair when done strictly as a hobby (not for sale or exchange).

**164 OTHER HOME IMPROVEMENTS**

Home improvements: additions to and remodelling done to the house, garage (e.g. new roof, repaved driveway).

### Special case

A respondent has purchased a building lot and is building his own home (this case should not be considered as a paid job).

### Cases coded elsewhere

- 181 Pay bills
- 171 Landscaping of backyard

## **171 GARDENING/GROUNDS MAINTENANCE**

Gardening; flower or vegetable gardening: spading, weeding, composting, picking. Also include activities related to the care of the grounds: raking and bagging leaves, cutting and watering the grass. Pool maintenance should be also coded here.

### Examples

- Cleaned pool
- Went outside and turned on sprinklers
- Cleaned pool filter
- Watering lawn

### Case coded elsewhere

- 164 Construction of pool and deck

## **172 PET CARE**

Include all activities associated with pet care: feeding pets, cleaning cages, walking the dog.

### Examples

- Drained my aquarium
- Played frisbee with dog
- Walked the dog
- Went outside to pick-up dog droppings

### Case coded elsewhere

- 350 Visit to veterinarian

## **173 CARE OF HOUSE PLANTS**

Include watering and replanting of plants that are usually found indoors.

## **181 HOUSEHOLD ADMINISTRATION**

Include activities such as household paperwork (i.e paying bills, balancing checkbook, making shopping lists, planning menus, etc.).

### Examples

Went through recipe book

Doing the bills

Planned my supper

Prepared shopping list

### Unusual Case

Showing house to perspective buyer or tenant.

## **182 STACKING AND CUTTING FIREWOOD**

Include cutting, splitting and stacking of firewood for use in fireplace or woodstove of residence (for personal consumption only). Also include starting fires and cleaning and maintaining of fireplace or woodstove.

### Examples

Brought in wood to put in fire

Cut wood with chainsaw

Stacked firewood

Lit fire in wood-burning stove

Put sawdust in burner.

## **183 OTHER DOMESTIC WORK**

Packing and unpacking from a move or vacation trip, holding a garage sale, putting away groceries, wrapping gifts.

### Examples

Packing to move

Supervised unpacking of delivery

Rearranging the living room

Getting front bedroom ready for visitors

Loaded luggage in car

Turned off lights and fan, got ready to leave

Making cigarettes

Giving out halloween candy

**190 TRAVEL: DOMESTIC**

Travel (including waiting time related to travel) for domestic work (activities 100 - 180) e.g., drive to the laundromat, go to the dump.

**HELP AND CARE GIVING FOR HOUSEHOLD MEMBERS 200 - 292****200 BABY CARE**

All child care (including housework, feeding, nursing and cooking) specifically for babies, i.e., children less than 5 years old.

Examples

Microwaved baby's bottle  
Nursed the baby  
Stayed up with crying baby  
Took baby for a stroll in stroller  
Cases Coded elsewhere

- 210 Child care (5 to 18 years old).  
210 Simultaneous care of babies and children.

**210 CHILD CARE**

Care toddler, children (ages 5 to 18) not described in Codes 220 - 250.

Simultaneous care of babies and children.

Examples

At day care with child  
Packed kids lunches  
Gave the kids their bath  
Put daughter to bed  
Watched the kids play with Nintendo game  
Woke up my son for school  
Got my daughter's clothes ready for school

Cases coded elsewhere

- 100-190 Housework devoted to children, especially fixing meals or snacks.  
220-250 Specific child care activities.

**220 HELPING/TEACHING/REPRIMANDING**

Helping/teaching children learn, fix, make things. Helping son bake cookies, helping daughter fix bike.

Help with art projects, homework, supervising homework.

Examples

Coaching the kids in the park for soccer

Checked school work for son

**230 READING/TALKING/CONVERSATION WITH CHILD**

Read to or talk to children.

Examples

Read to my son

Talking to my daughter

**240 PLAY WITH CHILDREN**

Indoor or outdoor play with children, e.g., board games, walking with or biking with children.

Example

Played Nintendo with children

**250 MEDICAL CARE - HOUSEHOLD CHILD**

Medical care to children of the household e.g., give children medicine or visit child's doctor or dentist.

Examples

Gave son medication

At son's psychiatrist's office

Admitted daughter to hospital and waited

**260 UNPAID BABYSITTING**

Unpaid babysitting or child care provided to children of the respondent's household.

Include all child care provided by other household members (**not parents or guardians**) that has not been coded elsewhere.

Case coded elsewhere

670 Unpaid babysitting for neighbour's child(ren)

**271 PERSONAL CARE - HOUSEHOLD ADULTS**

Care given to adults aged 19 years and older living in the household, if not included as household work.

Routine non-medical care to adults in household; "Got my wife up", "ran a bath for my husband".

Example

Washed disabled husband's hair

**272 MEDICAL CARE - HOUSEHOLD ADULTS**

Medical care given to adults aged 19 years and older living in the household. Include visiting, bringing food, assisting in emergencies.

**281 HELP AND OTHER CARE - HOUSEHOLD CHILDREN**

Other child care not described in 200 to 250.

Examples

Visiting household child in the hospital

At boys football practice

Meeting with teacher at my son's high school

Worked on kids halloween costume

Talking with child care worker before or after picking child

Cases coded elsewhere

673 Unpaid babysitting or child care to children not residing in household.

230 Reading to or talking with children.

**282 HELP AND OTHER CARE - HOUSEHOLD ADULTS**

Other care given to household adults not described in 271 and 272.

Examples

Visiting household adult in the hospital

Helped husband grade his students' exam papers.

Waited at doctor's office for spouse to receive medical care.

## **291 TRAVEL: HOUSEHOLD CHILD**

Travel (including waiting time related to travel) for child care (activities 200 - 260) e.g. take child to school.

### Examples

Dropped daughter at babysitters - talked  
Dropped off brother at school - waited in car  
Picked daughter up at school  
Took son to get his haircut  
Walked kids to school bus stop

## **292 TRAVEL: HOUSEHOLD ADULT**

Travel (including waiting time related to travel) for help and personal care for adult members of the household including travel time to doctors or hospitals, time spent driving adult members to work or other types of activities.

### Examples

Took kids to mother's place of employment to pick her up.  
Drove husband to airport.  
Drove wife to doctor's office.

## **SHOPPING AND SERVICES 300 - 390**

### **301 GROCERIES**

Shopping for food at markets, grocery stores and convenience stores (only for food items such as bread and milk).

### Examples

Shopping for food  
Went into corner or convenience store, picked up milk and bread  
Bought a six-pack of beer

### Case coded elsewhere

303 Shopping for take-out food

### **302 CLOTHING, GAS, ETC.**

Shopping for everyday goods and products except food, e.g. personal care products, gasoline; including for clothing, small appliances, sporting equipment; at drug stores, hardware stores, department store, "downtown" or "uptown", "shopping" or "window shopping".

Include shopping done for specific times or occasions of the year, e.g. Christmas shopping, Hanukkah, birthdays, Easter, Mother's Day, etc.

Examples

Picked up a newspaper  
Put gas in car  
Shopping at mall  
Shopping for Christmas gifts  
Bought a record  
Shopping at music store  
Bought lottery tickets  
Buying books

Case coded elsewhere

- 320 Personal care services (e.g. got a haircut).  
340 Medical care services or products (e.g. got a prescription filled, bought cold tablets)

**303 TAKE-OUT FOOD**

Include time spent ordering and waiting for food from take-out food restaurants.

**310 SHOPPING FOR DURABLE HOUSEHOLD GOODS**

Shopping for house, apartment, car, large appliance, motorcycles, bicycles, home improvement items; activities connected with buying, selling, renting, including phone calls, looking for house, including travelling around looking at real estate property (for own use).

**320 PERSONAL CARE SERVICES**

Personal care outside the home; e.g., barbers, beauticians.

Examples

Got a haircut  
Sat in beauty parlour/had hair fixed  
In tanning booth getting a tan  
Made reservations in restaurant  
Got a massage

Case coded elsewhere

- 340 Medical care not at home.

### **331 FINANCIAL SERVICES**

Financial services; activities related to taking care of financial business; going to the bank, using ATM, paying utility bills (not by mail), going to accountant, tax office, loan agency, insurance office, broker, financial consultant.

#### Examples

Got money out of instant teller  
Waited in line and did banking

Payed money on credit card at Canadian Tire

Payed telephone bill at Bell Canada

- both of theses examples are non-financial institutions but monetary (i.e. financial services are being accessed);

### **332 GOVERNMENT SERVICES**

Government services - municipal, local, provincial or federal e.g., post office, driver's license, sporting licenses, marriage licenses, police station, public library (not a school library).

Applying for or collecting unemployment insurance or welfare.

#### Case coded elsewhere

350 Going to a lawyer's office.

### **340 ADULT MEDICAL AND DENTAL CARE (OUTSIDE HOME)**

Medical and dental care outside the home, including making appointments and going to Chiropractor and Podiatrist.

#### Unusual case

Shop for medicines or fill prescriptions.

#### Cases coded elsewhere

- 302 Shop for shampoo, deodorant at drugstore.
- 410 Personal medical care at home (i.e. for respondent only).
- 272 Medical care at home for other household members.

### **350 OTHER PROFESSIONAL SERVICES (LAWYER, VETERINARIAN)**

Lawyer, veterinarian, home designer or decorator, landscape architect, alarm system specialists, travel agency, counselling, photographer and other professional services.

Example

Meeting with minister to discuss wedding or baptism.

**361 AUTOMOBILE MAINTENANCE AND REPAIR SERVICES**

Auto services; automatic car wash, repair and other auto services.

Examples

Had an oil change and lube on car

Having tires rotated on car

**362 OTHER REPAIR SERVICES**

Repair and cleaning services e.g. laundry and dry cleaning services, TV and electronics repair.

Clothes repair and cleaning: cleaners, laundromat, tailor.

Appliance repair: including furnace, water heater, electric or battery operated appliances; including watch repair person.

Household repair services: i.e. furniture.

Example

At VCR repair shop

**370 WAITING FOR PURCHASES OR SERVICES**

Waiting (long waits) for purchase of goods and services; waiting at the doctor's office, waiting at the garage for your car to be fixed.

Examples

Stood in line at grocery store

Waiting for prescription

**380 OTHER SHOPPING AND SERVICES**

Other services not described above, e.g., door-to-door salesperson or solicitor; attending a garage sale.

Run errand or borrow goods.

Examples

Picked up videos

Rented videos

Walked around a yard sale

**390 TRAVEL: GOODS/SERVICES**

Travel (including waiting time related to travel) for shopping and services (activities 301 - 380) e.g., go to doctor's office.

Examples

Waited at bus stop to come home from mall

Went to hospital for x-ray

Went to post office

Went to grocery store

**PERSONAL CARE 400 - 490**

**400 WASHING, DRESSING**

Personal washing and dressing including getting up or getting ready for bed, changing clothes, shaving, setting hair.

Examples

Washed hair, applied colour

Drew water for my bath

Blow drying hair

Got ready to eat - washed hands

Curled my hair, pulled it back

Put on makeup

Took a shower then put on makeup

Got dressed

Got ready for work

Prepared to go to bed

Get dressed ready for work

Got ready for bed, got undressed

Changed into swimsuit in lockerroom

Case coded elsewhere

060 Changing clothes or cleaning up at work.

**410 PERSONAL MEDICAL CARE (AT HOME)**

Personal medical care at home or private residence for self only; e.g., home medical treatment by doctor or taking medicine.

Examples

Tested blood and gave myself an insulin shot  
Got up to take medicine  
Sick in bathroom most of the time  
Resting on couch/I was sick

**430 MEALS AT HOME/SNACKS/COFFEE**

Meals and snacks at home.

Examples

Had a few beers  
Sat around and had a couple of cups of coffee  
Had a coffee and a cigarette

Unusual cases

Restaurant goods eaten at home.

Case coded elsewhere

050 Meals at work.

**431 OTHER MEALS/SNACKS/COFFEE AT ANOTHER PRIVATE RESIDENCE OR PUBLIC PLACE**

Meals and snacks that were eaten at another private residence, other than one which is owned by the respondent (i.e. cottage or vacation home), or in a public place (i.e. park at lunch time).

The respondent can be with other members of their household only. If the respondent is at another person's home and in the company of that person, then the activity code should be 752 (i.e. socializing with a meal at a private residence).

Examples

Eating a lunch while walking in the park.  
Having coffee at a friend's place while no one else is there.

**440 RESTAURANT MEALS**

Examples

Eating at McDonald's  
Out for coffee or tea.

Cases coded elsewhere

- 752 Meals as part of a visit at a private residence.  
760 Drink at bar or club.

**450 NIGHT SLEEP/ESSENTIAL SLEEP**

Essential sleep (usually at night); including "in bed" but not asleep, trying to go to sleep.

Examples

Sleeping at night  
Went to bed  
Attempting to sleep, in bed  
Checked the house and went to bed

Unusual case

Sleep during day for person on the night shift; longest sleep for day.

Cases coded elsewhere

- 460 Naps in bed.  
470 Relaxing, thinking.

**460 INCIDENTAL SLEEP, NAPS**

Incidental sleep e.g., naps (usually during the day).

Dozing", "laying down".

Examples

Fell asleep while watching TV  
Took nap

Case coded elsewhere

- 450 Essential sleep.

**470 RELAXING, THINKING, RESTING**

Relaxing, thinking, planning, doing nothing, "just sat".

Examples

Laid on the couch downstairs  
Arrived at motel/rested  
Relaxed  
Sat around for half an hour  
Sat around and thought for a long time  
Went to bed but not to sleep  
Waiting for husband to come home  
Sat and waited for guest  
Had a cigarette and relaxed.

**480 OTHER PERSONAL CARE OR PRIVATE ACTIVITIES**

All personal or private activities; "none of your business".

Examples

Sex.  
Washroom activities.

**491 TRAVEL: RESTAURANT MEALS**

Travel (including waiting time related to travel) for restaurant meals.

Example

Walked to restaurant.

**492 TRAVEL: OTHER PERSONAL ACTIVITIES**

Travel (including waiting time related to travel) for personal needs (activities 400 - 431, 450 - 480).

Other personal travel; e.g., "went to Montreal" (if no further explanation given).

**SCHOOL AND EDUCATION 500 - 590**

**500 FULL-TIME CLASSES**

Attending class as a full-time student (or as the principle occupation).

Unusual cases

Talking with instructor.  
Student teaching (unpaid).

Examples

Audit a university course (respondent is a full-time student).  
Worked as a student nurse in a hospital as part of the course work.

Cases coded elsewhere

- 510 Night school course.  
520 Attending special lectures.

**511 OTHER CLASSES (PART-TIME)**

Attending classes or training courses as less than a full-time student. Other classes, courses, lectures, academic or professional; R not a full-time student.

Unusual cases

Talking with instructor.  
Student teaching.

Example

Audit a university course (respondent is a part-time student).

**512 CREDIT COURSES ON TELEVISION**

Viewed an educational program of TV for a credit course (e.g. ITV, university television)

**520 SPECIAL LECTURES: OCCASIONAL**

Attending special lectures outside regular work or school, e.g., guest speakers.

Example

Listened to a discussion on AIDS

**530 HOMEWORK: COURSE, CAREER/SELF-DEVELOPMENT**

Homework, studying, research, reading, related to self-development,  
except for current job; "went to the library".

Sponsored or unsponsored (full or partial) homework for career-development.

Examples

Practised trumpet for school  
Started my homework  
Went to bed and studied

Cases coded elsewhere

- 010 Research or paperwork for one's job.
- 600 Union-management meetings.
- 640 Read the Bible or religious books for personal interest.

**540 MEALS/SNACKS/COFFEE AT SCHOOL**

Meals or snacks eaten at the place of education (e.g., meals at the school cafeteria).

**550 BREAKS/WAITING FOR CLASS**

Usually a short period of idle time spent before class.

**560 LEISURE AND SPECIAL INTEREST CLASSES**

Courses and classes usually not associated with academia, e.g., photography, dance, bridge, knitting classes.

**580 OTHER STUDY**

Other education not covered above, e.g., discussions, or time at school not spent in any of the activities coded 500 to 560. Work-related classes not taken during working hours.

Example

Checking out books at a school library.

**590 TRAVEL: EDUCATION**

Travel time (including waiting time related to travel) for education (activities 500 to 580) e.g., go to library to do research for course. Go for music lesson.

Examples

Went to library  
Waiting at bus stop to transfer  
Walked to other school building

Case coded elsewhere

291 Drove son to school

**ORGANIZATIONAL, VOLUNTARY, AND RELIGIOUS ACTIVITY 600 - 692**

**600 PROFESSIONAL, UNION, GENERAL**

Participating as a member of a social-political organization or labour union, e.g., union meeting, educational association.

Meetings and other activities as a member of a professional or union group including social activities and meals.

Example

At a hospital meeting

Unusual cases

Prepare financial report.

Call members to announce meeting.

**610 POLITICAL, CIVIC ACTIVITY**

Participating in meetings or organizations other than those covered in codes 600, especially "meetings" not further described.

Meetings, political/citizen organizations; attending meetings of a political party or citizen group, including city council.

Voting, jury duty or attending court.

Examples

Hearings or meetings at City Hall.

Witnessing an accident.

Naval reserve.

Waited in the juror's room

Went into the courtroom

Watching a fire

Being stopped by the police

Giving blood at Red Cross

Cases coded elsewhere

800 Take part in bowling league.

841 or 842 Take part in sewing circle.

**620 CHILD, YOUTH, FAMILY ORGANIZATIONS**

Participating in other organizations including boy and girl scouts, little league, YM/YWCA; School volunteer, etc.

Examples

Worked at preschool

Helped in kindergarten at school

**630 RELIGIOUS MEETINGS, ORGANIZATIONS**

Meetings and other activities of religious helping groups, i.e., helping oriented church groups - Ladies aid, circle, missionary society, Knights of Columbus.

Meetings and other activities of other religious groups, including social activities and meals, choir practice, bible class, church play, etc.

Example

Singing at choir practice

**640 RELIGIOUS SERVICES/PRAYER/BIBLE READINGS**

Attending services of a church or synagogue, including participating in the service; ushering, singing in choir at church, leading youth group, going to church, funerals.

Individual practice; religious practice carried out as an individual or in a small group; praying, meditating, bible study group (not at church), visiting graves.

Examples

Went to Sunday school

Prayed

At mass

Participated in funeral service

Unusual cases

Saying morning or evening prayers.

Read the Bible or religious books for personal interest.

Join in religious service on mass media.

Case coded elsewhere

630 Singing at choir practice

**651 FRATERNAL AND SOCIAL ORGANIZATIONS**

Participating in factory or worker councils or committees; fraternal associations - Kiwanis; Lions Club, Chamber of Commerce, Legion, senior's club (including social activities).

Example

Attended Optimist Club meeting

**652 SUPPORT GROUPS**

Participating in support groups for personal or family reasons; e.g. Alcoholics Anonymous, Al-Alon, family-related violence

**660 VOLUNTEER WORK (ORGANIZATIONS)**

Volunteer work for a civil purpose, attending meetings, helping organizations; fund raising, collecting money, planning a collection drive, e.g., Greenpeace, (phone) volunteer at Crisis Line.

Other activities as a member of volunteer helping organizations, including social events and meals.

Examples

Volunteer work with handicapped children  
Collected money for jog-a-thon

Cases coded elsewhere

671 - 677      Help other adults.

**671 HOUSEWORK AND COOKING ASSISTANCE**

Unpaid help with housework, including cooking, cleaning, grocery shopping and laundry given to friends, neighbours or relatives who do not live in the respondent's household.

**672 HOUSE MAINTENANCE AND REPAIR ASSISTANCE**

Unpaid help with repairs or maintenance on a house, yard for automobile given to friends, neighbours or relatives who do not live in the respondent's household.

**673 UNPAID BABYSITTING**

Unpaid babysitting or child care provided to friends, neighbours or relatives who do not live in the respondent's household.

**674 TRANSPORTATION ASSISTANCE**

Unpaid help with transportation for shopping purposes or getting around outdoors given to friends, neighbours or relatives who do not live in the respondent's household.

**675 CARE FOR DISABLED OR ILL**

Unpaid help given to care for a disabled or ill friend, neighbour or relative who does not live in the respondent's household.

**676 CORRESPONDENCE ASSISTANCE**

Unpaid help to write letters, solve problems, find information or fill out forms given to friends, neighbours or relatives who do not live in the respondent's household.

**677 UNPAID HELP FOR A BUSINESS OR FARM**

Unpaid help running a business or farm given to friends, neighbours or relatives who do not live in the respondent's household.

**677 OTHER UNPAID HELP**

Other unpaid help given to friends, neighbours or relatives who do not live in the respondent's household, not covered in categories 671 to 677 .

**680 OTHER ORGANIZATIONAL, VOLUNTARY AND RELIGIOUS ACTIVITY**

Organizational activity not covered above.

Examples

At the funeral parlour till 8  
Wrote cheque for the Kidney Foundation

Unusual cases

Unreported time spent between attending church and leaving for home.  
At funeral parlour but not for a funeral service.

**691 TRAVEL: CIVIC AND VOLUNTARY ACTIVITY**

Travel (including waiting time related to travel) for organizations (activities 600 to 630, 650 - 680) e.g., driving related to volunteer work.

Example

Drove friend to the airport

**692 TRAVEL: RELIGIOUS SERVICES**

Travel (including waiting time related to travel) for religious services/prayer/bible readings (activity 640), e.g., go to church.

**ENTERTAINMENT (ATTENDING) 700 - 793**

**701 PROFESSIONAL SPORTS EVENTS**

Attending a professional sporting event, e.g. Blue Jays' game, Blue Bombers' football game, Oilers' hockey game, women's professional tennis match.

Include attendance at all minor league games (where players are paid to perform; e.g. AAA baseball game) and those games that were attended outside of Canada.

**702 AMATEUR SPORTS EVENTS**

Attending an amateur sporting event; e.g. university football game, little league baseball game.

Examples

Watched a college basketball game

Went to see grandson play ball

Watching husband bowl or son play hockey.

Case coded elsewhere

911 Watching sports on television (regular schedule)

**711 POP MUSIC, CONCERTS**

Going to popular concerts, popular music (rock, country).

Examples

At concert listening to music

At Pink Floyd concert

**712 FAIRS**

Going to fairs, circuses, parades.

Examples

Attended amusement park  
At Canada's Wonderland  
Went to CNE, Super Ex  
Fashion shows  
At the pumpkin festival

Unusual cases

Watching ice follies.  
Visiting Santa Claus.

**713 ZOOS**

Going to zoos, botanical gardens, planetarium or observatory.

Example

Walked around zoo - looked at animals

**720 MOVIES, FILMS**

Attending movies, art films, and drive-in movies away from home.

Examples

At show/ watching movie  
Waiting for people in lobby of theatre

Cases coded elsewhere

780 Watching home movies.  
913 Watching rented or purchased movies on T.V.

**730 OPERA, BALLET, THEATRE**

Attending theatre (plays, dances), symphonies, operas.

**741 MUSEUMS**

Visiting any type of museums (excluding art).

**742 ART GALLERIES**

Visiting an art museum, art exhibition centre or artist run centre.

**743 HERITAGE SITES**

Visiting a historic site, an archaeological site, a conservation area or nature park if the primary activity is visiting the interpretation centre.

**751 SOCIALIZING WITH FRIENDS/RELATIVES/OTHERS (PRIVATE RESIDENCE; NO MEAL)**

Entertaining or visiting friends, socializing with people other than R's own household members either at R's home or another home talking/chatting in the context of receiving a visit or paying a visit. Does not include dinner.

Examples

Talking to boyfriend  
Went to a party  
Had a few beers with a friend  
Outside at friend's house .. patio area  
Had a beer and talked with friends  
Watched friends and brother play videogame  
Picked up date  
Drinking beer at a party  
Neighbour came over and visit

Case coded elsewhere

440 Go to restaurant for meal.

**752 SOCIALIZING WITH FRIENDS/RELATIVES (WITH MEAL)**

Entertaining or visiting friends, socializing with people other than R's own household members either at R's home or another home talking/chatting in the context of receiving a visit or paying a visit. Includes dinner or some other meal.

Example

Friends came over to visit and stayed for dinner

Case coded elsewhere

440 Go to restaurant for meal.

**753 SOCIALIZING WITH FRIENDS/RELATIVES/OTHERS (NON-PRIVATE RESIDENCE)**

Visiting friends, socializing with people other than R's own household members at a non-private residence. This category may include meals that were eaten at a non-private residence (excluding restaurants).

Examples

Meeting with friends at the mall (mailing)  
Visiting with a non-household relative at the hospital (No care given)  
Talking with friends at the bowling alley before bowling.

**760 SOCIALIZING AT BARS, CLUBS (NO MEAL)**

Socializing and/or dancing at bar where no meal was eaten; cocktail lounge, nightclub.

Examples

Arrived at bar, had a beer  
At comedy club with friends, laughing  
Talking to bartender  
At tavern alone watching big-screen television

**780 OTHER SOCIAL GATHERINGS**

Other social life and social gatherings not classifiable above, i.e., wedding receptions and ceremonies (not specified at church), birthday parties.

Examples

Attended wedding ceremony  
Built fire at beach with friends  
Standing in line to see wedding party  
Cocktail party/ wine and cheese party  
Exchange of christmas presents

Unusual case

Watching home movies or slides of vacations.

**791 TRAVEL: SPORTS, MOVIES AND OTHER ENTERTAINMENT EVENTS**

Travel (including waiting time related to travel) for sports and entertainment (activities 701 to 743) e.g., drove to baseball game, walked to the movie.

Case coded elsewhere

872 Pleasure driving as a passenger

**792 TRAVEL: SOCIALIZING (IN HOMES)**

Travel (including waiting time related to travel) for social entertainment (activities 751 and 752) e.g., go to visit friends.

**793 TRAVEL: OTHER SOCIALIZING**

Travel (including waiting time related to travel) for other non-resident social entertainment (activities 753 to 780) e.g., go to visit a friend at the hospital.

**SPORTS AND HOBBIES (PARTICIPATING) 800 - 894****800 COACHING**

Coaching sports competitively or leisurely. Includes, for example, football, tennis, golf, swimming, skating, bowling, frisbee, yoga, horseback riding, etc.

**801 FOOTBALL, BASKETBALL, BASEBALL, VOLLEYBALL, HOCKEY, SOCCER, FIELD HOCKEY****802 TENNIS, SQUASH, RACQUETBALL, PADDLEBALL****803 GOLF, MINIATURE GOLF****804 SWIMMING, WATERSKIING****805 SKIING, ICE SKATING, SLEDDING, ROLLER SKATING**Examples

Curling

Snowboarding

**806 BOWLING, POOL, PING-PONG, PINBALL**

**807 EXERCISES, YOGA, WEIGHTLIFTING**Examples

Did exercises  
Rode exercise bike  
At fitness centre  
Workout at gym  
Meditated  
Walked with weights for exercise  
Running for exercise

**808 JUDO, BOXING, WRESTLING, FENCING****809 ROWING, CANOEING, KAYAKING AND SAILING (COMPETITIVE)**Example

Wind surfing

**810 OTHERS SPORTS (EG. FRISBEE, CATCH, ETC.)**Examples

Went roller skating, track and field

**811 HUNTING****812 FISHING****813 BOATING**

Includes motorboats and rowboats.

**814 CAMPING****815 HORSEBACK RIDING, RODEO, JUMPING, DRESSAGE**

**816 OTHER OUTDOOR ACTIVITIES - SUCH AS EXCURSIONS**Examples

Bird watching, picnicking.  
Going to the beach.  
Snowmobiling for pleasure (i.e. not as a form of transit).  
Participating in a car rally

**821 WALK, HIKE**

Taking a walk, hiking, jogging, running.

**822 BICYCLING****831 HOBBIES DONE MAINLY FOR PLEASURE**

Hobbies and collections that are done mainly for the respondent's pleasure, including cleaning and repairs of hobby equipment, such as repairing leisure time equipment (repairing the boat, sorting out fishing tackle).

Activities associated with the operation of a respondent's hobby farm.

Working on cars (customizing, painting); photography, scrapbooks; carpentry and woodworking (as a hobby).

Includes artistic hobbies such as painting, sculpting, potting, drawing, creative writing.

Examples

Drawing and sketching  
Painting pictures  
Worked on photography  
Recorded some tapes  
Worked at home on the statistics for our hockey pool.

Unusual cases

Ham radio.  
Making a home movie.

Case coded elsewhere

841 Sewing, knitting, etc for pleasure.

**832 HOBBIES DONE FOR SALE OR EXCHANGE OF ITEMS**

Same type of hobbies and collections as found in Code 831, but undertaken for the main purpose of selling or exchanging (i.e. bartering).

**841 DOMESTIC HOME CRAFTS DONE MAINLY FOR PLEASURE**

Domestic home crafts such as sewing and dressmaking that are done mainly for the respondent's pleasure. Also knitting, needlework, weaving, crocheting, crewel, embroidery, quilting, macrame.

Examples

Crocheted  
Working on crafts

Cases Coded elsewhere

- 151 Mending necessary as part of housework.  
560 Classes for home crafts.

**842 DOMESTIC HOME CRAFTS DONE FOR SALE OR EXCHANGE**

Same type of domestic home crafts as found in Code 841, but undertaken for the main purpose of selling or exchanging (i.e. bartering).

**850 MUSIC, THEATRE, DANCE**

Singing or playing a musical instrument, dancing - ballet, modern dance, square dance, jazz excise, choir practice (non-religious), ballroom dancing, etc., acting (rehearsal for play).

Examples

Practised playing piano  
Participating in a competition of square-dancing

Cases coded elsewhere

- 560 Music or dance lessons.  
760 Dancing at a nightclub.

**861 GAMES, CARDS, ARCADE**

Games e.g., cards, bingo, puzzles, board games, crossword puzzles.

Examples

Played cards  
Did crossword puzzles  
Played a board game  
Playing bingo

Case coded elsewhere

560 Bridge lessons

**862 VIDEO GAMES, COMPUTER GAMES**

Case coded elsewhere

751 Games as part of visit.

**863 GENERAL COMPUTER USE (NOT GAMES)**

Example

Learning a new software package

Case coded elsewhere

530 Doing an assignment for school on a computer.

**871 PLEASURE DRIVES, SIGHTSEEING AS A DRIVER**

**872 PLEASURE DRIVES, SIGHTSEEING AS A PASSENGER IN A CAR**

**873 OTHER PLEASURE DRIVES, SIGHTSEEING**

Example

Bus tour

**880 OTHER SPORT OR ACTIVE LEISURE**

Other active leisure and unascertained times surrounding active leisure, i.e. hot tubbing, sunbathing, going to cut down a Christmas tree (outdoors).

Examples

Put up Christmas decorations  
Maintaining and cleaning ice rink for skating  
Waxing skies

**891 TRAVEL: ACTIVE SPORTS**

Travel (including waiting time related to travel) for active leisure (activities 802 to 822 ) e.g., go to play baseball.

Cases coded elsewhere

871, 872 or 873      Pleasure driving.

**892 TRAVEL: COACHING**

Travel (including waiting time related to travel) for coaching activities (activity 800).

**893 TRAVEL: HOBBIES AND CRAFTS FOR SALE**

Travel (including waiting time related to travel) for hobbies and domestic crafts for sale or exchange (activities 832 and 842).

**894 TRAVEL: OTHER ACTIVE LEISURE**

Travel (including waiting time related to travel) for other active leisure not specified in activities 891, 892 and 893.

Examples

Drove to tavern to pick-up tables for hockey pool.  
Driving to the hotel for vacation

**MEDIA AND COMMUNICATION 900 - 990**

**900 LISTENING TO THE RADIO**

Listening to the radio; music, news, commentaries etc.

**911 WATCHING TELEVISION (REGULAR SCHEDULED TELEVISION)**

Watching any regular scheduled programming on television.

Examples

Watched my soap  
Laid on couch and watched TV

**912 WATCHING TELEVISION (TIME-SHIFTED TELEVISION)**

Watching any programming recorded from television for later viewing (differed programming using a VCR).

**913 WATCHING RENTED OR PURCHASED MOVIES**

Watching commercial tapes rented from a video store or privately owned.

**914 OTHER TELEVISION WATCHING**

Watching home tapes recorded using a video camera or camcorder.

Example

Watching home-recorded video tape of a wedding.

**920 LISTENING TO CD'S, CASSETTE TAPES OR RECORDS.**

Listening to CD's, records or tapes, listening to others playing a musical instrument.

Unusual case

Recording music.

**931 READING BOOKS**

Reading books; technical, political, novels, poetry, etc.

Cases coded elsewhere

- 010 Read as part of job.
- 230 Read to children.
- 530 Read for homework.
- 640 Read the Bible if done as a religious activity.

**932 READING MAGAZINES**

Self explanatory. Also include pamphlets, bulletins, newsletters.

**940 READING NEWSPAPERS**

Self explanatory.

**950 TALKING, CONVERSATION, PHONE**

Phone and face-to-face conversations, arguing, fighting.

Examples

Sitting around talking

Talked on phone

Spoke to wife while she made dinner

Talked to parents

Went in living room visited with daughter

**961 READING MAIL**

Reading letters, mail or cards.

Example

Checked the mail

**962 OTHER LETTERS AND MAIL**

Writing, sending Christmas cards.

Example

Typed a letter to my friend

Cases coded elsewhere

181 Writing and mailing bills.

831 or 832 Creative writing.

**980 OTHER MEDIA AND COMMUNICATION**

Media and communication activity not covered above.

Examples

Video taping a television program

Programming a satellite dish

Checking the telephone answering machine for messages

**990 TRAVEL: MEDIA AND COMMUNICATION**

Travel (including waiting time related time to travel) for passive leisure (activities 900 to 980).

Example

Walked to end of driveway to pick-up mail

**RESIDUAL ACTIVITY CODES****001 MISSING GAP IN TIME**

There has been a gap in time between activities, or the respondent could not remember the activity and therefore there is no activity description.

**002 REFUSED INFORMATION**

The respondent refused to give information on all or part of the day.

**APPENDIX L**

**1986 Activity Coding List**

## **1986 DAILY ACTIVITIES CODE LIST**

### **Employed Work**

- 01 Work for Pay
- 02 Extra to Work/Overtime/Looking for Work
- 03 Travel During Work
- 04 Waiting, Delays at Work
- 05 Meals-Snacks at Work
- 06 Idle Time Before or After Work
- 07 Coffee, Other Breaks
- 08 Uncodeable Work Activities
- 09 Travel: To-From Work

### **Domestic Work**

- 10 Meal Preparation
- 11 Meal Clean-up (Dishes/Clearing Table)
- 12 Indoor Cleaning (Dusting/Vacuuming)
- 13 Outdoor Cleaning (Sidewalks/Garbage)
- 14 Laundry, Ironing, Folding
- 15 Mending
- 16 Home Repairs, Maintenance
- 17 Gardening, Pet Care
- 18 Other Uncodeable Housework (Bills)
- 19 Travel: Domestic work

### **Care of Children**

- 20 Baby Care
- 21 Child Care
- 22 Helping Teaching, Reprimanding Children
- 23 Reading, Talking, Conversation with Children
- 24 Play with Children
- 25 Medical Care - Child
- 28 Other Child Care (Unpaid Babysitting)
- 29 Travel: Child Care

### **Shopping and Services**

- 30 Everyday Shopping (Food, Clothing, Gas)
- 31 Shopping for Durable Household Goods (House, Car)
- 32 Personal Care Services (Hairdresser)
- 33 Government and Financial Services
- 34 Adult Medical & Dental Care (Outside Home)
- 35 Other Professional Services (Lawyer)
- 36 Repair Services (Cleaning, Auto, Appliance)
- 37 Waiting, Queuing for Purchase
- 38 Other Uncodeable Services
- 39 Travel: Goods or Services

### **Personal Care**

- 40 Washing, Dressing, Packing
- 41 Adult Medical Care (At Home)
- 42 Help and Personal Care to Adults
- 43 Meals at Home/Snacks/ Coffee
- 44 Restaurant Meals
- 45 Night Sleep/Essential Sleep
- 46 Incidental Sleep, Naps
- 47 Relaxing, Thinking, Resting
- 48 Other Personal Care or Private Activities
- 49 Travel: Personal care

### **School and Education**

- 50 Full-time Classes
- 51 Other Classes - Part-time
- 52 Special Lectures: Occasional
- 53 Homework: Course, Career, Self-Development
- 54 Meals-Snacks, Coffee at School
- 55 Breaks or Waiting for Class to Begin
- 56 Leisure and Special Interest Classes
- 57 ---
- 58 Other Uncodeable Study
- 59 Travel: Education

## **Organizational, Voluntary and Religious Activity**

- 60 Professional, Union, General
- 61 Political, Civic Activity
- 62 Child, Youth, Family Organization
- 63 Religious Meetings, Organizations
- 64 Religious Services/Prayer/Read Bible
- 65 Fraternal, Social Organizations
- 66 Volunteer Work, Helping
- 67 ---
- 68 Other Uncodeable Organizations
- 69 Travel: Organizations

## **Entertainment (Attending)**

- 70 Sports Events
- 71 Pop Music, Fairs, Concerts
- 72 Movies, Films
- 73 Opera, Ballet, Drama
- 74 Museums and Art Galleries
- 75 Visits, Entertaining Friends/Relatives
- 76 Socializing at Bars, Clubs
- 77 ---
- 78 Other Social Gatherings
- 79 Travel: Entertainment

## **Sports & Hobbies (Participation)**

- 80 Sports, Physical Exercise, Coaching
- 81 Hunt, Fish, Camp
- 82 Walk, Hike
- 83 Hobbies
- 84 Domestic Home Crafts
- 85 Music, Theatre, Dance
- 86 Games, Cards, Arcade
- 87 Pleasure Drives, Sightseeing
- 88 Other Uncodeable Sport or Active Leisure
- 89 Travel: Sports, Hobbies

## **Media and Communication**

- 90 Radio
- 91 Televisioin, Rented Movies
- 92 Records, Tapes, Listening
- 93 Reading Books, Magazines
- 94 Reading Newspapers
- 95 Talking, Conversation, Phone
- 96 Letters and Mail
- 98 Other Uncodeable (Media or Communication)
- 99 Travel: Media or Communication

## **Residual Codes**

- 26 Missing Time (Gaps)
- 27 Refusal
- 97 Activity Not Stated

## **APPENDIX M**

### **1986 to 1992 Activity Code Comparison**

The following document compares the codes for daily activities that were used in the 1986 General Social Survey (GSS) to those codes which were used during the 1992 GSS.

**DAILY ACTIVITY CODES**

1986 GSS, Cycle 2

**EMPLOYED WORK**

- 01 Work for pay  
 02 Extra to work/  
     overtime/looking for work  
 03 Travel During Work  
 04 Waiting/Delays at Work  
 05 Meals/Snacks at Work  
 06 Idle Time Before/After Work  
 07 Coffee/Other Breaks  
 08 Other Work Activity  
 09 Travel: To/From Work

**DAILY ACTIVITY CODES**

1992 GSS, Cycle 7

- 011 Work for Pay at Main Job  
 012 Work for Pay at Other Job(s)  
 021 Overtime Work  
 022 Looking for Work  
 023 Unpaid Work in a Family Business or Farm  
 332 Government Services (e.g. UIC)  
     - applying for or collecting UIC  
 030 Travel During Work  
 040 Waiting/Delays at Work  
 050 Meals/Snacks at Work  
 060 Idle Time Before/After Work  
 070 Coffee/Other Breaks  
 080 Other Work Activity  
 090 Travel: To/From Work

**DOMESTIC WORK**

- 10 Meal Preparation  
 11 Meal Cleanup  
 12 Indoor Cleaning  
 13 Outdoor Cleaning  
 14 Laundry, Ironing, Folding  
 15 Mending  
 16 Home Repairs, Maintenance  
 17 Gardening, Pet Care  
 18 Other Uncodable Housework  
 19 Travel: Domestic

- 101 Meal Preparation  
 102 Baking, Preserving Food, Home Brewing, etc.  
 110 Food (or Meal) Cleanup  
 120 Indoor Cleaning  
 130 Outdoor Cleaning  
 171 Gardening/Grounds Maintenance  
     - raking cut grass or leaves  
 182 Stacking and Cutting Firewood  
 140 Laundry, Ironing, Folding  
 151 Mending/Shoe Care  
 152 Dressmaking and Sewing  
 161 Interior Maintenance and Repair  
 162 Exterior Maintenance and Repair  
 163 Vehicle Maintenance  
 164 Other Home Improvements  
 171 Gardening/Grounds Maintenance  
 172 Pet Care  
 173 Care of House Plants  
 181 Household Administration,  
     e.g. Paying Bills, Menu Planning, etc.  
 183 Other Domestic Work (not specified above)  
 190 Travel: Domestic

## CARE OF CHILDREN

20	Baby Care	200	Baby Care - Household Child
21	Child Care	210	Child Care - Household Child
22	Helping/Teaching/Reprimanding	220	Helping/Teaching/Reprimanding
		281	Other Child Care - visiting with child's teacher
23	Reading/Talking/Conversation	230	Reading/Talking/Conversation with Child
24	Play with Children	240	Play with Children
25	Medical Care	250	Medical Care - Household Child

		492	Travel: Other Personal Activities
		292	Travel: Household Adult

## SCHOOL AND EDUCATION

50	Full-Time Classes	500	Full-Time Classes
51	Other Classes - Part-Time	511	Other Classes (Part-Time)
52	Special Lectures: Occasional Self-Development	512	Credit Courses on Television
53	Homework: Course, Career/ Self-Development	520	Special Lectures: Occasional
54	Meals/Snacks/Coffee at School	530	Homework: Course, Career/ Self-Development
55	Breaks/Waiting for Class	540	Meals/Snacks/Coffee at School
56	Leisure and Special Interest Classes	550	Breaks/Waiting for Class
58	Other Uncodeable Study	560	Leisure and Special Interest Classes
59	Travel: Education	580	Other Study
		590	Travel: Education

## ORGANIZATIONAL, VOLUNTARY AND RELIGIOUS ACTIVITY

60	Professional, Union, General	600	Professional, Union, General
61	Political, Civic Activity	610	Political, Civic Activity
62	Child, Youth, Family Organization	620	Child, Youth, Family Organization
63	Religious Meetings, Organizations	630	Religious Meetings, Organizations
64	Religious Services/Prayer/Read Bible	640	Religious Services/Prayer/Bible Readings
65	Fraternal, Social Organizations	651	Fraternal and Social Organizations (e.g. Lions' Club)
66	Volunteer Work, (Organizations)	652	Support Groups (e.g. Al-Alon, AA)
		660	Volunteer Work, (Organizations)
		671	Housework and Cooking Assistance
		672	House Maintenance and Repair Assistance

68	Other Uncodeable Organizations	674	Transportation Assistance
69	Travel: Organizations	675	Care for Disabled or Ill
		676	Correspondence Assistance
		630	Religious Meetings, Organizations - volunteer work dealing exclusively with church
		680	Other Organizational, Voluntary and Religious Activity
		610	Political, Civic Activity - hearings or meetings at city hall
		691	Travel: Civic & Voluntary Activity
		692	Travel: Religious Services
		674	Transportation Assistance

#### **ENTERTAINMENT (Attending)**

70	Sports Events	701	Professional Sports Events
71	Pop Music, Fairs, Concerts	702	Amateur Sports Events
72	Movies, Films	711	Pop Music, Concerts
73	Opera, Ballet, Theatre	712	Fairs
74	Museums and Art Galleries	713	Zoos
75	Visits, Entertaining Friends/ Relatives	720	Movies, Films
76	Socializing at Bars, Clubs	730	Opera, Ballet, Theatre
78	Other Social Gatherings	741	Museums
79	Travel: Entertainment	742	Art Galleries
		743	Heritage Sites
		751	Socializing (No Meal)
		752	Socializing (w/Meal, Excl. Restaurants)
		753	Socializing (at non-private residence)
		760	Socializing at Bars, Clubs (no meal) - watching home movies
		780	Other Social Gatherings (Weddings, Wakes)
		914	Other Television Viewing (home recorded movies)
		791	Travel: Sports, Movies & Other Entertainment Events
		792	Travel: Socializing (In Homes)
		793	Travel: Other Socializing

#### **SPORTS AND HOBBIES (PARTICIPATION)**

80	Sports, Physical Exercise, Coaching	800	Coaching
		801	Football, Baseball, Hockey, etc.
		802	Tennis, Squash, Racquetball, etc.
		803	Golf, Miniature Golf
		804	Swimming, Waterskiing
		805	Skiing, Ice Skating, etc.
		806	Bowling, Pool, etc.

		807 Exercises, Yoga, Weight Lifting
		808 Judo, Boxing, Wrestling, Fencing
		809 Rowing, Canoeing, Kayaking and Sailing
		810 Other Sports, e.g. Frisbee, Catch
		815 Horseback Riding, Rodeo, Jumping, Dressage
		816 Other Outdoor Activities - Excursions
81	Hunt, Fish, Camp	822 Biking
		811 Hunting
		812 Fishing
		813 Boating
		814 Camping
		809 Rowing, Canoeing, Kayaking and Sailing
82	Walk, Hike	821 Walking, Hiking
83	Hobbies	822 Biking
84	Domestic Home Crafts	831 Hobbies Done Mainly for Pleasure
85	Music, Theatre, Dance	832 Hobbies Done For Sale or Exchange of Items
86	Games, Cards, Arcade	841 Domestic Home Crafts Done Mainly for Pleasure
87	Pleasure Drives, Sightseeing	842 Domestic Home Crafts Done For Sale or Exchange of Items
		850 Music, Theatre, Dance
		861 Games, Cards, Arcade
		862 Video Games/Computer Games
		863 General Computer Use (Not Games)
		871 Pleasure Drives as a Driver
		872 Pleasure Drives as a Passenger in a Car
		873 Other Pleasure Drives (e.g. bus tour)
88	Other Uncodable Sport or Active Leisure	880 Other Sport or Active Leisure
89	Travel: Sports, Hobbies	863 General Computer Use (Not Games)
		891 Travel: Active Sports
		893 Travel: Hobbies & Crafts For Sale or Exchange
		894 Travel: Other Active Leisure
		892 Travel: Coaching

#### MEDIA AND COMMUNICATION

90	Radio	900 Listening to the Radio
91	Television, Rented Movies	911 Watching Television (regular scheduled television)
		912 Watching Television (time-shifted television)
		913 Watching Rented or Purchased Movies

92	Records, Tapes, Listening	914	Other Television Viewing (home recorded movies)
93	Reading Books, Magazines	512	Credit Courses on Television
94	Reading Newspapers	920	CD's, Tapes, Records, Listening
95	Talking, Conversation, Phone	931	Reading Books
96	Letters and Mail	932	Reading Magazines
98	Other Uncodeable (Media or Communication)	940	Reading Newspapers
99	Travel: Media or Communication	950	Talking, Conversation, Phone
		961	Reading Mail
		962	Other (Writing letters)
		980	Other Media or Communication
		990	Travel: Media or Communication

#### **RESIDUAL CODES**

26	Missing	001	Missing Gap in Time
27	Refused	002	Refused Information
97	Activity Not Stated	002	Refused Information

## **Changes to Procedures or Methods:**

- 1) The activity codes from 20-29 (in 1986) have been changed to include all care (personal and medical) given to household members (excluding the respondent; see item #3) for 1992, not just the children of the household.

1986: Care of Children

1992: Help and Care Giving for Household Members

- 2) Time reference - 24 hours

During the 1986 GSS, total time for the activities had to cover exactly 24 hours only. The 1992 survey diary will cover at least a 24-hour period or more. This is due to the fact that the respondent will be asked for the time he/she went to bed on the day preceding the designated day, if applicable, and the time he/she awoke on the day following the designated day.

- 3) Activities for Personal Care (400 - 491)

In the 1986 GSS, the personal care activity codes (40 - 49) were not used exclusively for the respondent's own personal care. For example, if the respondent was performing an activity that helped another adult household member (i.e. caring for a sick husband) then the 1986 code was 'Adult Medical Care (at Home)', code #41. The 1992 GSS will now code that type of activity under Help and Care Giving for Household Members (200 - 292) and specifically for this example: code #272, Medical Care - Household Adult. If the help was provided to someone from outside the household then the activity will be found under Organizational, Voluntary and Religious Activity (600 - 692) and specifically for this example: code #675, Care for Disabled or Ill.

The 1992 GSS will code personal care activities for the respondent only in the 400 series codes. Help provided by the respondent for other household members will be found in the 200 series while help provided for persons outside the household will be found in the 600 series.

- 4) In 1986, if the type of reading was not specified then the activity was coded to reading books (code #93). For 1992, the interviewer is to probe for the type of reading (i.e. books, newspapers, magazines or mail).

- 5) Travel:

In 1986, there were four "In Transit" categories used (i.e. car, walk, bus and subway, and other) in question (d) of the diary episode. For the 1992 GSS, the category of 'car' has been split to acquire the information from the respondents whether they were a driver or a passenger. A new category for 'bicycle transit' will also be used.

- 6) Also in question (d) of the diary episode, a new category has been added to the 'Place' categories. The "Someone Else's Home" category will be available. In 1986, respondents who were at another private residence were coded to the "Other Place" category.

## **APPENDIX N**

### **1992 to 1986 Activity Code Comparison**

The following document compares the codes for daily activities that were used in the 1992 General Social Survey (GSS) to those codes used during the 1986 GSS.

**DAILY ACTIVITY CODES**  
1992 GSS, Cycle 7

**EMPLOYED WORK**

677	Unpaid Help for a Business or Farm	42	Help and Care to Adults - for non-household members only
678	Other unpaid work	42	Help and Care to Adults - for non-household members only
680	Other Organizational, Voluntary and Religious Activity	68	Other Uncodeable Organizations
691	Travel: Civic & Voluntary Activity	69	Travel: Organizations
692	Travel: Religious Services	69	Travel: Organizations

#### **ENTERTAINMENT (Attending)**

701	Professional Sports Events	70	Sports Events
702	Amateur Sports Events	70	Sports Events
711	Pop Music, Concerts	71	Pop Music, Fairs, Concerts
712	Fairs	71	Pop Music, Fairs, Concerts
713	Zoos	71	Pop Music, Fairs, Concerts
720	Movies, Films	72	Movies, Films
730	Opera, Ballet, Theatre	73	Opera, Ballet, Theatre
741	Museums	74	Museums and Art Galleries
742	Art Galleries	74	Museums and Art Galleries
743	Heritage Sites	74	Museums and Art Galleries
751	Socializing (No Meal)	75	Visits, Entertaining Friends/Relatives
752	Socializing (w/Meal, Excl. Restaurants)	75	Visits, Entertaining Friends/Relatives
753	Socializing w/friends (non-private residence)	75	Visits, Entertaining Friends/Relatives
760	Socializing at Bars, Clubs (no meal)	76	Socializing at Bars, Clubs
780	Other Social Gatherings (Weddings, Wakes)	78	Other Social Gatherings
791	Travel: Sports, Movies & Other Entertainment Events	79	Travel: Entertainment
792	Travel: Socializing (In Homes)	79	Travel: Entertainment
793	Travel: Other Socializing	79	Travel: Entertainment

## SPORTS AND HOBBIES (PARTICIPATION)

800	Coaching	80	Sports, Physical Exercise, Coaching
801	Football, Baseball, Hockey, etc.	80	Sports, Physical Exercise, Coaching
802	Tennis, Squash, Racquetball, etc.	80	Sports, Physical Exercise, Coaching
803	Golf, Miniature Golf	80	Sports, Physical Exercise, Coaching
804	Swimming, Waterskiing	80	Sports, Physical Exercise, Coaching
805	Skiing, Ice Skating, etc.	80	Sports, Physical Exercise, Coaching
806	Bowling, Pool, etc.	80	Sports, Physical Exercise, Coaching
807	Exercises, Yoga, Weight Lifting	80	Sports, Physical Exercise, Coaching
808	Judo, Boxing, Wrestling, Fencing	80	Sports, Physical Exercise, Coaching
809	Rowing, Canoeing, Kayaking and Sailing	80	Sports, Physical Exercise, Coaching
		81	Hunt, Fish, Camp
			- boating
810	Other Sports, e.g. Frisbee, Catch	80	Sports, Physical Exercise, Coaching
811	Hunting	81	Hunt, Fish, Camp
812	Fishing	81	Hunt, Fish, Camp
813	Boating	81	Hunt, Fish, Camp
814	Camping	81	Hunt, Fish, Camp
815	Horseback Riding, Rodeo, Jumping, Dressage	80	Sports, Physical Exercise, Coaching
816	Other Outdoor Activities - Excursions	80	Sports, Physical Exercise, Coaching
821	Walking, Hiking	82	Walk, Hike
822	Biking	80	Sports, Physical Exercise, Coaching
831	Hobbies Done Mainly for Pleasure	83	Hobbies
832	Hobbies Done For Sale or Exchange of Items	83	Hobbies
841	Domestic Home Crafts Done Mainly for Pleasure	84	Domestic Home Crafts
842	Domestic Home Crafts Done For Sale or Exchange of Items	84	Domestic Home Crafts
850	Music, Theatre, Dance	85	Music, Theatre, Dance
861	Games, Cards, Arcade	86	Games, Cards, Arcade
862	Video Games/Computer Games	86	Games, Cards, Arcade
863	General Computer Use (Not Games)	88	Other Uncodable Sport or Active Leisure
871	Pleasure Drives as a Driver	87	Pleasure Drives, Sightseeing
872	Pleasure Drives as a Passenger in a Car	87	Pleasure Drives, Sightseeing
873	Other Pleasure Drives (e.g. bus tour)	87	Pleasure Drives, Sightseeing
880	Other Sport or Active Leisure	88	Other Uncodable Sport or Active Leisure
891	Travel: Active Sports	89	Travel: Sports, Hobbies
892	Travel: Coaching	89	Travel: Sports, Hobbies
893	Travel: Hobbies & Crafts for Sale	89	Travel: Sports, Hobbies
894	Travel: Other Active Leisure	89	Travel: Sports, Hobbies

## MEDIA AND COMMUNICATION

900	Listening to the Radio	90	Radio
911	Watching Television (regular scheduled television)	91	Television, Rented Movies
912	Watching Television (time-shifted television)	91	Television, Rented Movies
913	Watching Rented or Purchased Movies	91	Television, Rented Movies
914	Other Television Viewing (home recorded movies)	91	Television, Rented Movies
		78	Other Social Gatherings - watching home movies if recorded using a video or camcorder
920	CD's, Tapes, Records, Listening	92	Records, Tapes, Listening
931	Reading Books	93	Reading Books, Magazines - reading books: technical, political, novels, poetry
932	Reading Magazines	93	Reading Books, Magazines - reading magazines; also include pamphlets, bulletins, newsletters
940	Reading Newspapers	94	Reading Newspapers
950	Talking, Conversation, Phone	95	Talking, Conversation, Phone
961	Reading Mail	96	Letters and Mail
962	Other (Writing letters)	96	Letters and Mail
980	Other Media or Communication	98	Other Uncodeable (Media or Communication)
990	Travel: Media or Communication	99	Travel: Media or Communication

## RESIDUAL CODES

001	Missing Gap in Time	26	Missing
002	Refused Information	27	Refused
		97	Activity Not Stated

## **APPENDIX O**

### **1992 Twenty-four Code Activity System**

The following document illustrates how the the 24 sub-categories were derived from the 167 activity codes used in the 1992 General Social Survey (GSS).

**DAILY ACTIVITY CODES, 1992 TIME USE SURVEY**  
**Twenty-four Code Activity System**

**A. PAID WORK AND RELATED ACTIVITES**

**1. Paid Work (WORKPAID)**

- 011 Work for Pay at Main Job
- 012 Work for Pay at Other Job(s)
- 021 Overtime Work
- 023 Unpaid Work in a Family Business or Farm
- 030 Travel During Work
- 040 Waiting/Delays at Work
- 070 Coffee/Other Breaks
- 832 Hobbies Done For Sale or Exchange
- 842 Domestic Home Crafts Done For Sale or Exchange
- 080 Other Work Activities

**2. Activities Related to Paid Work (OTHRPAID)**

- 022 Looking for Work
- 060 Idle Time Before/After Work
- 893 Travel: Hobbies & Crafts for Sale

**3. Commuting (DUR090)**

- 090 Travel: To/From Work

**B. HOUSEHOLD WORK AND RELATED ACTIVITES**

**4. Cooking/Washing Up (COOKDOMS)**

- 101 Meal Preparation
- 102 Baking, Preserving Food, Home Brewing, etc.
- 110 Food (or Meal) Cleanup

**5. Housekeeping (HSKPDOMS)**

- 120 Indoor Cleaning
- 130 Outdoor Cleaning
- 140 Laundry, Ironing, Folding
- 151 Mending/Shoe Care
- 152 Dressmaking and Sewing

**6. Maintenance and Repair (MAINDOMS)**

- 161 Interior Maintenance and Repair
- 162 Exterior Maintenance and Repair
- 163 Vehicle Maintenance
- 164 Other Home Improvements

7. **Other Household Work (OTHRDOMS)**
  - 171 Gardening/Grounds Maintenance
  - 172 Pet Care
  - 173 Care of House Plants
  - 181 Household Administration, e.g. Paying Bills, Menu Planning, etc.
  - 182 Stacking and Cutting Firewood
  - 183 Other Household Work, n.e.s.
  - 190 Travel: Domestic Work
8. **Shopping for Goods and Services (SHOPDOMS)**
  - 301 Groceries
  - 302 Clothing, Gas, etc.
  - 303 Take-out Food
  - 310 Shopping for Durable Household Goods
  - 320 Personal Care Services (e.g. Haircut)
  - 331 Financial Services (e.g. Banking)
  - 332 Government Services (e.g. UIC)
  - 340 Adult Medical and Dental Care
  - 350 Other Professional Services
  - 361 Automobile Maintenance and Repair
  - 362 Other Repair Services (e.g. T.V., Appliances)
  - 370 Waiting for Purchases or Services
  - 380 Other Shopping and Services
  - 390 Travel: Shopping for Goods and Services
9. **Child Care (CHLDDOMS)**
  - 200 Baby Care - Household Child
  - 210 Child Care - Household Child
  - 220 Helping/Teaching/Reprimanding
  - 230 Reading/Talking/Conversation with Child
  - 240 Play with Children
  - 250 Medical Care - Household Child
  - 260 Unpaid Babysitting
  - 281 Other Child Care
  - 291 Travel: Transportation for Household Child

## C. SOCIAL SUPPORT, CIVIC AND VOLUNTARY ACTIVITY

10. **Civic and Voluntary Activity (VLNTORGN)**
  - 800 Coaching
  - 600 Professional, Union, General
  - 610 Political, Civic Activity
  - 620 Child, Youth, Family Organization
  - 630 Religious Meetings, Organizations
  - 651 Fraternal and Social Organizations (e.g. Lions' Club)
  - 652 Support Groups (e.g. Al-Alon, AA)
  - 660 Volunteer Work, (Organizations)

671	Housework and Cooking Assistance
672	House Maintenance and Repair Assistance
673	Unpaid Babysitting
674	Transportation Assistance
675	Care for Disabled or Ill
676	Correspondence Assistance
677	Unpaid Help for a Business or Farm
678	Other Unpaid Work
680	Other Civic and Voluntary Activity
271	Personal Care - Household Adults
272	Medical Care - Household Adults
282	Other Care for Household Adults
691	Travel: Civic & Voluntary Activity
892	Travel: Coaching
292	Travel: Transportation for Household Adults

#### D. EDUCATION AND RELATED ACTIVITES

11.	<b>Education and Related Activities (SCHLEDUC)</b>
500	Full-Time Classes
511	Other Classes (Part-Time)
512	Credit Courses on Television
520	Special Lectures: Occasional
530	Homework: Course, Career/Self-Development
550	Breaks/Waiting for Class
560	Leisure and Special Interest Classes
580	Other Study
590	Travel: Education and Related Activities

#### E. SLEEP, MEALS AND OTHER RELATED ACTIVITES

12.	<b>Night Sleep (DUR450)</b>
450	Night Sleep/Essential Sleep
13.	<b>Meals (excl. Restaurant Meals) (MEALPERS)</b>
050	Meals/Snacks at Work
540	Meals/Snacks/Coffee at School
430	Meals/Snacks/Coffee at Home
431	Other Meals/Snacks/Coffee (excl. Restaurants)
14.	<b>Other Personal Activities (OTHRPERS)</b>
400	Washing, Dressing
410	Personal Medical Care at Home
460	Incidental Sleep, Naps
470	Relaxing, Thinking, Resting
480	Other Personal Care or Private Activities
492	Travel: Other Personal Activities
640	Religious Services/Prayer/Bible Readings
692	Travel: Religious Services

## **F. SOCIALIZING**

- 15. Restaurant Meals (RESTSOCL)**  
440 Restaurant Meals  
491 Travel: Restaurant Meals
- 16. Socializing (In Homes) (HOMESOCL)**  
751 Socializing at a Home (No Meal)  
752 Socializing at a Home Private Residence (w/Meal)  
950 Talking, Conversation, Phone  
792 Travel: Socializing (In Homes)
- 17. Other Socializing (OTHRSOCL)**  
760 Socializing at Bars, Clubs (No Meal)  
753 Other Socializing (e.g. at Malls, Hospitals)  
780 Other Social Gatherings (Weddings, Wakes)  
793 Travel: Other Socializing

## **G. TELEVISION, READING AND OTHER PASSIVE LEISURE**

- 18. Watching Television (TELEMDIA)**  
911 Watching Television (Scheduled Programming)  
912 Watching Television (Time-shifted Viewing)  
913 Watching Rented or Purchased Movies  
914 Other Television Viewing (Home Recorded Movies)
- 19. Reading Books, Magazines, Newspapers (READMDIA)**  
931 Reading Books  
932 Reading Magazines  
940 Reading Newspapers
- 20. Other Passive Leisure (OTHRMDIA)**  
900 Listening to the Radio  
920 Listening to CDs, Tapes, Records  
961 Reading Mail  
962 Other (Writing Letters)  
980 Other Media or Communication  
990 Travel: Television, Reading and Other Passive Leisure

## **H. SPORTS, MOVIES AND OTHER ENTERTAINMENT EVENTS**

- 21. Sports, Movies and Other Entertainment Events (ENTREVNT)**  
701 Professional Sports Events  
702 Amateur Sports Events  
711 Pop Music, Concerts  
712 Fairs  
713 Zoos  
720 Movies, Films

730	Opera, Ballet, Theatre
741	Museums
742	Art Galleries
743	Heritage Sites
791	Travel: Sports, Movies and Other Entertainment Events

## I. ACTIVE LEISURE

### 22. Active Sports (SPRTACTV)

801	Football, Baseball, Hockey, etc.
802	Tennis, Squash, Racquetball, etc.
803	Golf, Miniature Golf
804	Swimming, Waterskiing
805	Skiing, Ice Skating, etc.
806	Bowling, Pool, etc.
807	Exercises, Yoga, Weight Lifting
808	Judo, Boxing, Wrestling, Fencing
809	Rowing, Canoeing, Kayaking and Sailing
810	Other Sports, e.g. Frisbee, Catch
811	Hunting
812	Fishing
813	Boating
814	Camping
815	Horseback Riding, Rodeos, Jumping, Dressage
816	Other Outdoor Activities - Excursions
821	Walking, Hiking
822	Biking
891	Travel; Active Sports

### 23. Other Active Leisure (OTRACTV)

831	Hobbies Done Mainly for Pleasure
841	Domestic Home Crafts Done Mainly for Pleasure
861	Games, Cards, Arcade
862	Video Games/Computer Games
863	General Computer Use (Not Games)
850	Music, Drama, Dance
871	Pleasure Drives as a Driver
872	Pleasure Drives as a Passenger (Car)
873	Other Pleasure Drives (e.g. Tour Bus)
880	Other Sport or Active Leisure
894	Travel: Other Active Leisure

## J. RESIDUAL

### 24. Residual Time (DVRESID)

001	Missing Time
002	Refusals

**APPENDIX P**

**1992 GSS Sports Code List**

## 1992 GSS Sports Code List

<p>Amputee Sports: include any sports specifically organized for amputees (61)</p> <p>Archery (01)</p> <p>Badminton (02)</p> <p>Baseball (03)</p> <p>Basketball (04)</p> <p>Biathlon (53)</p> <p>Blind Sports: include any sports organized specifically for the blind (60)</p> <p>Bobsleigh (05)</p> <p>Bowling, Five Pin (55)</p> <p>Bowling, Ten Pin (57)</p> <p>Boxing (07)</p> <p>Broomball (63)</p> <p>Canoeing/Kayaking (08)</p> <p>Cricket (09)</p> <p>Curling (52)</p> <p>Cycling (10)</p> <p>Deaf Sports: include any sports organized for deaf persons (58)</p> <p>Diving (11)</p> <p>Equestrian (12)</p> <p>Fencing (13)</p> <p>Field Hockey (21)</p> <p>Figure Skating (31)</p> <p>Football - Tackle, Flag, Touch (14)</p> <p>Golf (15)</p> <p>Gymnastics (16)</p> <p>Handball - 4 walls (18)</p> <p>Hockey (Ice) (20)</p> <p>Judo (22)</p> <p>Karate (23)</p> <p>Kayaking (08)</p> <p>Lacrosse (24)</p> <p>Lawn Bowling (51)</p> <p>Luge (06)</p>	<p>Modern Pentathlon (27)</p> <p>Orienteering (26)</p> <p>Racquetball (28)</p> <p>Rhythmic Gymnastics (17)</p> <p>Ringette (56)</p> <p>Rowing (25)</p> <p>Rugby (29)</p> <p>Sailing/Yachting (46)</p> <p>Shooting (30)</p> <p>Ski Jumping (49)</p> <p>Skiing Downhill/Alpine (47)</p> <p>Skiing, Cross Country/Nordic (48)</p> <p>Skiing, Freestyle (50)</p> <p>Skiing, Nordic Combined (54)</p> <p>Soccer (34)</p> <p>Softball (35)</p> <p>Speed Skating (32)</p> <p>Squash (36)</p> <p>Swimming (37)</p> <p>Swimming, synchronized (38)</p> <p>Table Tennis (40)</p> <p>Tae Kwon Do (64)</p> <p>Team Handball (19)</p> <p>Tennis (39)</p> <p>Track and Field - Athletics (41)</p> <p>Triathlon (62)</p> <p>Volleyball (42)</p> <p>Water Skiing (33)</p> <p>Waterpolo (43)</p> <p>Weightlifting (44)</p> <p>Wheelchair Sports: include any sports organized specifically for people in wheelchairs (59)</p> <p>Wrestling (45)</p> <hr/> <p>Other (65)</p>

### LIST OF SPORTS TO BE EXCLUDED (CODE 00)

<p>Aerobics/Dancercize/Jazzercise</p> <p>Baton Twirling</p> <p>Bicycling for recreation/transportation</p> <p>Body Building</p> <p>Bridge</p> <p>Car Racing</p> <p>Cheer/spiritleading</p> <p>Chess</p> <p>Darts</p>	<p>Fishing</p> <p>Gliding/Soaring</p> <p>Hiking</p> <p>Jogging</p> <p>Motorcycling</p> <p>Skate Boarding</p> <p>Snowmobiling</p> <p>Trampoline</p> <p>Tug of War</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------

**APPENDIX Q**

**A Guide to Using the Time Use Data Files**

## **A Guide to Using the Time Use Data Files**

The time use portion of the GSS Cycle 7 collected data on the daily activities of Canadians. Information was collected by asking respondents to report their daily activities during the course of a 24 hour reference day starting at 4:00 in the morning. While multiple activities may be done simultaneously, the scope of the survey only allowed for the collection of data on one activity - the main activity as determined by the respondent.

For each activity respondents were asked the start and end time of the activity, where the activity took place (at home, at work, someone else's home, other place or type of transit) and who the respondent was with at the time (alone, spouse/partner, children of household, other family members, friend, others). The latter was not asked for sleep and most other personal care activities e.g. washing, dressing, packing (codes 400, 450, 460 and 480).

The activities reported by respondents were coded into 167 individual groups and these groups were then categorized into the following 10 major activity groups:

1. Employed Work
2. Domestic Work
3. Help and Care Giving for Household Members
4. Shopping & Services
5. Personal Care
6. School & Education
7. Organizational, Voluntary & Religious Activity
8. Entertainment (Attending)
9. Sports & Hobbies (Participation)
10. Media & Communication

In order to facilitate analysis of the time use data, three separate data files were created, the main file, the time use summary file and time use episode file. The following is a guide to using the time use data files.

### Three main aspects of time use

The analysis done using the file will generally be concerned with one or more of the following measures.

#### 1. Participation Rate

This is the proportion of the population who reported on a particular activity. This is calculated as:

$$P^a = \frac{\sum_i W_i X_i^a}{\sum_i W_i}$$

where  $P^a$  = participation rate for activity a  
 $X_i^a$  = 1 if respondent reported activity a, = 0 otherwise  
 $W_i$  = weight for person i

Note that the indicator of participation is a nonzero number of episodes for that activity.

#### 2. Average time for participants

The average time spent on an activity by all participants in that activity is calculated as:

$$TP^a = \frac{\sum_i W_i t_i^a}{\sum_i W_i X_i^a}$$

where  $TP^a$  = average time for all participants in activity a  
 $X_i^a$  = 0 or 1, indication of participation in activity a  
 $t_i^a$  = time on activity a for person i (=0 if no participation)  
 $W_i$  = weight for person i

#### 3. Average time for total population

The average time spent on an activity by the total population (including both participants and non participants) is calculated as:

$$T^a = \frac{\sum_i W_i t_i^a}{\sum_i W_i}$$

where  $T^a$  = average time for total population in activity a  
 $t_i^a$  = time on activity a for person i (=0 if no participation)  
 $W_i$  = weight for person i

This time will always be less than the average time for participants and is equal to the time for participants if the participation rate is 100%.

The following are a number of comments that are intended to help in using the time use files:

1. The participation rates and the average times can be calculated for any subgroup of the population by considering only the individuals in the subgroup.
2. The average time spent either for the participants or the entire population represent an average over a full seven day week (automatically due to the weight) unless a selection is done for a particular day of the week using variable DDAY.
3. In total, 819 respondents (8% of all respondents) refused to describe their activities or most of them for the reference day. They were excluded from the tables used in the preliminary release (see tables at the end of the section).
4. The average time for the total population summed across all activities is equal to 1440 minutes (24 hours). This is not the case for average time of participants.
5. Average time for the total population can be added to obtain average time for a grouping of activities. This is not the case for participants.
6. The participation rate can be approximated by dividing the average time for the population by the average time for the participants.
7. Adding durations for social contacts (i.e. variables DURWHO01 to DURWHO09) will likely exceed 24 hours in most situations since time spent for a given activity with more than one type of social contact is counted each time. For example, watching television for an episode of 45 minutes with spouse and children will account for 45 minutes in DURWHO02 (spouse) as well as 45 minutes in DURWHO03 (children).
8. Code 002 represents time spent on activities the respondent refused to report, while code 001 represents gaps in time when the respondent described his/her reference day.
9. Durations for each activity are for main activity only (as perceived by the respondent).
10. Variables on the Main File can be linked to variables on the Time Use files using the variable SEQNUM as a matching key.

#### Summary File

The summary file provides summary activity information for each respondent on:

- i) the total time spent on each activity;
- ii) the total time spent at various locations;
- iii) the total time spent with various persons.

Note that this file summarizes the data for each respondent along each of these three dimensions of activities. It does not however provide the details on individual activity episodes. For example the file provides the total time spent on an activity such as T.V. watching, although the total time may have been reported during one or multiple episodes of T.V. watching during the day. The summary file indicates the number of episodes of each activity but provides no time data on separate episodes. Similarly the information for location and "who with" is the total for the day. The "who with" data do not add to 24 hours as a respondent could be with more than one person or groups of persons at a time. DVFAMILY provides an unduplicated measure of time spent with the immediate family. There is no information on this file which links an activity with a location or who the person was with at the time. This information is provided on a detailed episode file described below.

In addition to reporting the summary data for individual activities, locations and contacts, summary data have also been included for selected derived groupings of these factors. In particular, data are shown for 10 major groups of activities as indicated above and the 24 subcategories found in Appendix O. Other derived variables are:

- Total duration of time in transit
- Total duration of time spent with family (spouse/partner, children in household or other family members)
- Number of activities
- Number of episodes

In addition to the summary activity information on the file, selected characteristics of respondents are included.

In order to provide control counts in using the summary file, the two tables used in the preliminary release of the data are included at the end of this appendix. Users should be able to replicate these using the file.

### Examples using the Summary file

#### a) ACTIVITY TABLES

When weighted estimates for the duration of time spent at an activity, for example, employed work, by the population are required

```
Declare      @1312 TIMEWGT    10.4      (weight)
            @1107 DVPAID      4.        (employed work)
```

When weighted estimates for the duration of time spent at an activity for participants only are required, exclude the respondents who did not report that activity, e.g., employed work,

i.e., Select respondents for whom DVPAID > 0.

The participation rate of a given activity is the percentage of the total population that reported the activity and can be derived using the formula provided.

When weighted estimates are required for a sub-group of the population, select the provided code for the desired sub-group, for example, time spent at employed work (DVPAID) for males and employed males.

Declare      @1312 TIMEWGT    10.4                 (weight)  
                @1107 DVPAID        4.                 (employed work)  
                @1274 ACT7DAYS      1.                 (main activity in the past 7 days)  
                @1290 DVSEX         1.                 (sex of respondent)

Select      DVSEX = 1 and ACT7DAYS = 1.

DVPAID	Total Population	Total Participants <sup>1</sup>	Participation Rate (%)
Males	10,421,154	5,344,782	51
Employed Males	6,570,930	4,805,223	73

#### NOTES

- (i) DVPAID (employed work) provides an estimate of employed work that includes individual activities 011-090. In comparing productive work (employed work + domestic work + help and care giving to household members + shopping) between employed persons and persons keeping house, it should be noted that productive time for those employed includes commuting to work as well as meals/snacks eaten at work. The meals/snacks of those keeping house are included in personal care as meals eaten at home are classified to personal care. Those keeping house may appear to have less productive time using this classification strategy as 1) they do not commute to work and 2) their meals and snacks are not included in productive time.
- (ii) The classification of meals/snacks at work and commuting time to the employed work and concomitantly to productive time will also bias the level of productive time in favour of the male population as a higher proportion of the population keeping house are female.

---

<sup>1</sup>

For any activity, if sample size is less than 25 or weighted sample size is less than 35,000 (at the Canada level) then the data are not considered reliable and should be suppressed.

## b) LOCATION

When weighted estimates for the duration of time spent at various locations or in various means of transit by the population are required:

Declare	@1312 TIMEWGT	10.4	(weight)
	@0683 DURLOC01	4.	(home)
	@0687 DURLOC02	4.	(work)
	@0691 DURLOC03	4.	(someone else's home)
	@0695 DURLOC04	4.	(other place)
	@0699 DURLOC05	4.	(car as a driver)
	@0703 DURLOC06	4.	(car as a passenger)
	@0707 DURLOC07	4.	(walking)
	@0711 DURLOC08	4.	(bus or subway)
	@0715 DURLOC09	4.	(bicycle)
	@0719 DURLOC10	4.	(other form of transit) <sup>2</sup>
	@0723 DURLOC88	4.	(missing location)
	@0727 DURLOC98	4.	(in transit, form of transit not stated)
	@0731 DURLOC99	4.	(location not stated)

When weighted estimates for duration of time spent at various locations or in transit by participants only are required, exclude the respondents who did not report any time at that location or in transit,

i.e., Select respondents for whom DURLOC## > 0.

The participation rate of activity at a given location or given means of transit, is the percentage of the total population that reported activity at the location or in transit and can be derived using the formula provided.

DURLOC02			
Location (Work)	Total Population	Total Participants	Participation Rate (%)
Employed Males	6,570,930	4,355,299	66

DURLOC01 to DURLOC99 provides an estimate of the duration of time spent at various locations or in various means of transit. This time will add to 24 hours for the population.

<sup>2</sup>

Includes other transit such as boats, airplanes, etc.

### c) SOCIAL CONTACTS

When weighted estimates for the duration of time spent with various social contacts for the population are required:

Declare	@1312 TIMEWGT	10.4	(weight)
	@0735 DURWHO01	4.	(alone)
	@0739 DURWHO02	4.	(spouse)
	@0743 DURWHO03	4.	(children of household)
	@0747 DURWHO04	4.	(other family members) <sup>3</sup>
	@0751 DURWHO05	4.	(friends)
	@0755 DURWHO06	4.	(others)
	@0759 DURWHO07	4.	(missing activity)
	@0763 DURWHO08	4.	(personal-activity codes 400, 450, 460 and 480) <sup>4</sup>
	@0767 DURWHO09	4.	(social contacts not stated)

When weighted estimates for the duration of time spent with social contacts for participants only are required, exclude the respondents who did not report the required social contact,

i.e., Select respondents for whom DURWHO# > 0

The participation rate of activity with a given social contact is the percentage of the total population that reported activity with the contact and can be derived using the formula provided.

Social Contact (Spouse)	Total Population	Total Participants <sup>5</sup>	Participation Rate (%)
Employed Males	6,570,930	4,332,131	66

DURWHO01 to DURWHO09 provides estimates of the duration of time spent alone or with others. The duration of time with social contacts will not necessarily add to 24 hours because a respondent can spend time in the company of more than one person at a time. The derived variable DVFAMILY, position 1155, includes total unduplicated time with spouse, children and/or other family members (DURWHO02 - DURWHO04).

---

<sup>3</sup> Other family members include parents, brothers, sisters, grandchildren and other relatives even if they are not members of the immediate household.

<sup>4</sup> Respondents were not asked for social contacts during personal care activity codes 400, 450, 460 and 480.

<sup>5</sup> For any social contact, if sample size is less than 25 or weighted sample size is less than 35,000 (at the Canada level) then the data are not considered reliable and should be suppressed.

### Episode File

The episode file provides the detailed information on each activity episode reported by respondents. For each episode there is information on the start and end time of the activity, the duration of episode (derived from start and end time), the location of the episode and a set of variables that reflect who the respondent was with during the episode. Since there could be multiple contacts for an episode, the contact data is provided in the form of a set of variables, one for each type of contact.

Note that the unit record for this file is the episode and not the respondent. For example, a respondent who has reported 26 different episodes for his/her reference day has generated 26 records on the Episode file. There is no information on the characteristics of the respondent. However each episode can be linked to the respondent using the sequence number and characteristics can be obtained from the summary or main files. In addition each episode includes information on the diary day and the total number of episodes for a respondent.

The episode file can be used for a number of different types of analysis. One use of the file is to consider a given activity (e.g. T.V. watching) and to analyze the distribution of episodes across time (time of day and/or day of week). The file can also be used to look at where various activities take place (e.g. paid work at home) or the social contacts for various activities. The file can also be used to look at the distribution of activities at any point in time (e.g. what is the population doing at 8:00 a.m., 11:00 p.m., 3:00 a.m., etc). More complicated analysis can be done by linking episodes for an individual and looking at the sequencing of different activities. Similarly by linking the episodes back to the characteristics of respondents, one can look at who in the population engages in various activities at different times during the day.

In view of the novelty of the episode file, the GSS staff is interested in any work that is done with the file. Users are encouraged to contact the GSS staff to pass on any experiences with the data. The GSS staff will attempt to share whatever experience they have and that which other researchers have reported to them.

### Examples using the Episode file

The episode file consists of 190,327 records including 2,375 episodes with REFFLAG=1. It is important to note that each record represents a single activity in a respondent's day, and that each respondent's episodes must add up to twenty four hours (1440 minutes), i.e., a respondent is represented by more than one record. Each record has its own weight field, namely,

@34 TIMEWGT 10.4

which represents the respondent's weight and will be the same for all episodes of a given respondent. With this in mind, it is critical that weights are applied properly. In cases where one activity, e.g., television viewing, can have more than one episode in a day, the episodes of the same activity for each respondent must be combined then weighted. It is important to ensure that the weight is applied only once for each respondent.

In order to work with the episode file and ensure the weighting is done properly it is advantageous to "flag" the first episode of each activity for each respondent. This is so that the first episode carries the weight for a given respondent. A suggested method of doing so is as follows:

- 1) Declare      @01    SEQNUM      5.  
                  @09    ACTCODE     3.  
                  @12    STARTIME    4.  
                  @33    REFFLAG     1.  
                  @34    TIMEWGT    10.4
- 2) Select respondents with REFFLAG = 0.
- 3) Sort the data, by SEQNUM and by ACTCODE. This groups all incidents of the same activity within a given respondent's (SEQNUM) day.
- 4) For the first incident of each activity, assign a value of one to the "flag" (henceforth referred to as FLAGWGT), and assign FLAGWGT a value of zero to all other incidents of that activity.

This procedure is useful for some of the following applications.

a) LOCATION

When weighted estimates for the duration of time spent at an activity, e.g., work for pay at main job, at a given location, e.g., at home, are required,

Declare      @09    ACTCODE     3.  
                  @20    DURATION    4.  
                  @24    PLACE       2.  
                  @33    REFFLAG     1.  
                  @34    TIMEWGT    10.4

Select        REFFLAG = 0.

Select        ACTCODE = 011 (Working for pay at main job)  
                  PLACE = 01 (home).

Define        FLAGWGT as above to be 1 or 0.

Calculate the average time by summing across all selected records as follows:

$$\frac{\sum_k T_k W_k}{\sum_k F_k W_k}$$

where  $T_k$  = episode time for record k.  
 $W_k$  = original respondent weight (TIMEWGT) for record k.  
 $F_k$  = flag (0 or 1) for record k.

Calculate the participation rate as follows:

$$\frac{\sum_k F_k W_k \text{ (for those with ACTCODE = 011 and spouse = 1)}}{\sum_k F_k W_k \text{ (for those with ACTCODE = 011)}}$$

Location for code 011	Participant Mean (min.)	Participation Rate %
Total	445	100
Home	207	15

#### b) SOCIAL CONTACTS

When weighted estimates for the duration of time spent at an activity, e.g., television viewing, with a particular social contact, e.g., spouse, are required,

Declare        @09    ACTCODE    3.  
                @20    DURATION    4.  
                @27    SPOUSE      1.  
                @33    REFFLAG     1.  
                @34    TIMEWGT    10.4

Select        REFFLAG = 0.

Select        ACTCODE = 911 (Watching Television, Regular Scheduled Television)  
                SPOUSE = 1 (yes - with spouse)

Define        FLAGWGT as above to be 1 or 0.

Calculate the average time by summing across all selected records as follows:

$$\frac{\sum_k T_k W_k}{\sum_k F_k W_k}$$

where  $T_k$  = episode time for record k.  
 $W_k$  = original respondent weight (TIMEWGT) for record k.  
 $F_k$  = flag (0 or 1) for record k.

Social Contact for code 911	Participant Mean (min.)	Participation Rate %
Total	166	100
Spouse	141	49

c) ACTIVITIES AT ANY POINT IN TIME

When weighted estimates of the proportion of people doing a particular activity at a given point in time of the day, e.g., 0800h, are required,

Declare      @09    ACTCODE    3.  
              @12    STARTIME    4.  
              @16    ENDTIME    4.  
              @33    REFFLAG    1.  
              @34    TIMEWGT    10.4

Select REFFLAG = 0.

Select records where STARTIME ≤ 0800 and ENDTIME > 0800<sup>6</sup>.

---

<sup>6</sup> When selecting activities based on time of day, it is recommended to recode the STARTIME and ENDTIME of the activities to ensure proper selection:

if 0000 ≤ STARTIME < 0400 then add 2400  
if 0000 ≤ ENDTIME ≤ 0400 then add 2400

Calculate the number of participants as follows:

$$\sum_k W_k$$

where the summation is over the selected records for a given activity (e.g., work for pay, T.V. viewing, all activities, etc.). Note that in this case the weighting is not a problem since each respondent has one and only one record selected for any particular time of day.

Activity at 0800h	Total Population (000's)	Participation Rate %
Total	21,294	100
Work for pay	3,788	18
Travel: to- from work	1,091	5
Night sleep/ essential sleep	5,164	24
